

# Appendix C

## Public Concern List

### Introduction

Public Concerns are derived directly from public comment. Each represents the gist of a statement of concern made by the public. Concerns may be derived from one person's input, but often represent the view of many respondents. They are intended to aid the planning team in characterizing the issues to be analyzed in subsequent stages of the planning process. They may also provide a framework for preparing responses to public comment. Primarily, public concerns serve to guide readers to public comment on specific topics. As such, this index is intended to be used as a cross reference to public concerns listed in chapters 1 through 6 of the Summary of Public Comment. Readers may identify their areas of concern within the list provided in this index and then reference the relevant portion of the summary document. There they will find sample quotes in support of the concern statement. Each sample quote includes a letter number reference should users wish to look at the original letter on file at the office of the Content Analysis Team in Salt Lake City, Utah.

<b>Chapter 1 CEQ Review and Planning Processes</b>	<b>1-1</b>
CEQ REVIEW OF THE NEPA PROCESS .....	1-1
CEQ Review General .....	1-3
1. Public Concern: The CEQ is right to review NEPA. ....	1-3
And should take the lead in improving NEPA .....	1-3
And should review NEPA on an on-going basis .....	1-3
2. Public Concern: The CEQ Task Force should report the current status of its efforts. ....	1-3
3. Public Concern: The CEQ Task Force should keep in mind the complexity of NEPA implementation in its review. ....	1-3
4. Public Concern: The CEQ Task Force should keep in mind the complexity of the natural environment in its review. ....	1-3
5. Public Concern: The CEQ Task Force should review current practices in light of the original spirit and intent of NEPA. ....	1-4
To protect the environment .....	1-4
6. Public Concern: The CEQ Task Force should not use the review of NEPA as an excuse to weaken environmental protection. ....	1-4
7. Public Concern: The CEQ Task Force should seek new, innovative ways to meet NEPA purposes. ....	1-4
8. Public Concern: The CEQ Task Force should take a stronger position on key aspects of NEPA. ....	1-4
9. Public Concern: The CEQ Task Force should pursue change more aggressively. ....	1-4
10. Public Concern: The CEQ should not review NEPA. ....	1-5
Rather, it should focus resources on internal management compliance reviews .....	1-5

11. Public Concern: The CEQ Task Force should address the true purpose of this review.....	1-5
12. Public Concern: The CEQ Task Force should recognize that, in its own approach, it is foiling the purposes of NEPA. ....	1-6
Scope of Review .....	1-6
13. Public Concern: The CEQ Task Force should expand the scope of its review. ....	1-6
To include a review of NEPA history and processes.....	1-6
To include a review of congressional findings in section 101 of NEPA .....	1-7
To include a review of previous congressional acts .....	1-7
To include a review of federal and federally permitted activities in the U.S. Exclusive Economic Zone and High Seas .....	1-7
14. Public Concern: The CEQ Task Force should keep its review within the scope outlined in the federal register notice. ....	1-7
15. Public Concern: The CEQ Task Force should clarify what issues it is reviewing and what recommendations will follow. ....	1-7
16. Public Concern: The CEQ Task Force should consider areas B, C, and E before A and D. ....	1-8
Agency Coordination and Review of Reports .....	1-8
17. Public Concern: The CEQ Task Force should coordinate efforts with the Transportation Infrastructure Streamlining Task Force. ....	1-8
18. Public Concern: The CEQ Task Force should coordinate efforts with the Energy Projects Streamlining Task Force. ....	1-8
19. Public Concern: The CEQ Task Force should allow test pilot projects to proceed in parallel with its own efforts. ....	1-9
20. Public Concern: The CEQ Task Force should coordinate with the Federal Highway Administration in reviewing examples of effective streamlining of NEPA processes. ....	1-9
21. Public Concern: The CEQ Task Force should review reports relevant to its review of NEPA. ....	1-9
“New Approaches for Managing Federally Administered Lands” and “Breaking the Gridlock – Federal Land Pilot Projects in Idaho” .....	1-9
The Memorandum for General Counsels, NEPA Liaisons, and Participants in Scoping .....	1-9
Data gathered by the Udall Institute for Environmental Conflict Resolution.....	1-10
NEPA Task Force .....	1-10
22. Public Concern: The CEQ Task Force should include diverse participants. ....	1-10
Private and non-federal participants .....	1-10
State government representatives .....	1-10
American Indian nations .....	1-10
23. Public Concern: The CEQ Task Force should consider that a centralized task force is less effective than decentralized innovations. ....	1-11
Trust and Integrity of CEQ Review .....	1-11
24. Public Concern: The CEQ Task Force should be independent of political pressure. ....	1-11
25. Public Concern: The CEQ Task Force should not pander to special interests.....	1-11
Industrial interests .....	1-11
26. Public Concern: The CEQ Task Force should address citizen frustration with government. ....	1-11

Public Involvement in the CEQ Review .....	1-12
Public Involvement in the CEQ Review General.....	1-12
27. Public Concern: The CEQ Task Force should engage all affected parties.....	1-12
28. Public Concern: The CEQ Task Force should ensure equal treatment to all people in the public involvement process. ....	1-12
29. Public Concern: The CEQ Task Force should notify anyone who has submitted comments to federal agencies in the last five years. ....	1-12
30. Public Concern: The CEQ Task Force should hold meetings for the purpose of exchanging ideas by those outside of the federal government.....	1-12
31. Public Concern: The CEQ Task Force should require agencies to file their comments before accepting comments from other parties. ....	1-12
So the public can understand agency perspectives.....	1-12
32. Public Concern: The CEQ Task Force should submit its recommendations for public comment, and respond to comments. ....	1-13
33. Public Concern: The CEQ Task Force should provide notice and comment rulemaking procedures for any changes in interpretive guidance for NEPA implementation.....	1-13
Length of Comment Period .....	1-13
34. Public Concern: The CEQ Task Force should extend the comment period.....	1-13
And notify the public.....	1-13
30 day extension.....	1-13
90 day comment period .....	1-14
35. Public Concern: The CEQ Task Force should reopen the comment period.....	1-14
Use of Website for Public Comment.....	1-14
36. Public Concern: The CEQ Task Force should create a more user-friendly website. ....	1-14
37. Public Concern: The CEQ Task Force should revise the website questions. ....	1-14
38. Public Concern: The CEQ Task Force should recognize that the website questions do not address the real problems with NEPA implementation. ....	1-14
39. Public Concern: The CEQ Task Force should post comments on the website.....	1-15
Decisionmaking Authority .....	1-15
40. Public Concern: The CEQ Task Force should recognize that it has the authority to streamline NEPA without congressional action. ....	1-15
NEPA AND PLANNING PROCESSES – GENERAL IMPLEMENTATION .....	1-15
NEPA and Planning Processes General .....	1-19
41. Public Concern: The CEQ Task Force should support the retention of NEPA.....	1-19
Because NEPA is more important now than when it was enacted.....	1-19
Because NEPA requires agencies to be honest.....	1-19
42. Public Concern: The CEQ Task Force should consider that NEPA is one of the most important laws enacted to protect the environment.....	1-20
43. Public Concern: The CEQ Task Force should support the abolishment of NEPA.....	1-20
Because it circumvents the democratic process.....	1-20

Because there are already sufficient environmental safeguards and because NEPA wastes too much in tax dollars.....	1-20
Because it is based on the false premise that the environment has value independently of human interests .....	1-21
44. Public Concern: The CEQ Task Force should consider that NEPA has evolved into one of the most onerous federal burdens.....	1-21
45. Public Concern: The CEQ Task Force should reconsider CEQ's judgment that NEPA is successful despite numerous identified problems....	1-21
46. Public Concern: The CEQ Task Force should consider that NEPA is not the problem. ....	1-22
The problem is the bureaucratic culture.....	1-22
47. Public Concern: The CEQ Task Force should compare NEPA's benefits with its adverse effects. ....	1-22
48. Public Concern: The CEQ Task Force should review the current applicability of NEPA. ....	1-22
49. Public Concern: The CEQ Task Force should examine irregularities in the NEPA process. ....	1-22
50. Public Concern: The CEQ Task Force should consider the causes of NEPA failure. ....	1-23
51. Public Concern: The CEQ Task Force should recognize that NEPA's brevity has left its interpretation to the courts.....	1-23
Purpose of NEPA .....	1-23
52. Public Concern: The CEQ Task Force should provide a clearer vision of NEPA's purpose. ....	1-23
53. Public Concern: The CEQ Task Force should reinforce a broader vision of NEPA.....	1-23
54. Public Concern: The CEQ Task Force should consider that the purpose of NEPA is to balance protection of the environment with human welfare....	1-24
Stewardship and conservation, without the denial of use to humans .....	1-24
55. Public Concern: The CEQ Task Force should consider that NEPA is meant to be procedural, not substantive. ....	1-24
56. Public Concern: The CEQ Task Force should consider that the purpose of NEPA is excellence in decisions, not excellence in paperwork. ....	1-24
57. Public Concern: The CEQ Task Force should consider that the purpose of NEPA has become avoidance of litigation. ....	1-25
Changing/Streamlining NEPA .....	1-25
58. Public Concern: The CEQ Task Force should change the NEPA process.....	1-25
To simply and clarify the process.....	1-25
To make it a more rational and effective process.....	1-26
To allow responsible actions.....	1-26
To ensure protection of the environment without stifling business .....	1-26
To ensure that resources are not committed prior to final decisions .....	1-27
59. Public Concern: The CEQ Task Force should streamline the NEPA process.....	1-27
To reduce "analysis paralysis" and gridlock .....	1-27
60. Public Concern: The CEQ Task Force should require annual reports from agencies on their progress in streamlining environmental review.....	1-27
61. Public Concern: The CEQ Task Force should consider the streamlining revisions of the Montana Environmental Policy Act.....	1-28

62. Public Concern: The CEQ Task Force should provide guidance to non-land management agencies on how to streamline the NEPA process.....	1-28
63. Public Concern: The CEQ Task Force should rectify the weaknesses in NEPA's legal and institutional framework. ....	1-28
64. Public Concern: The CEQ Task Force should not change the NEPA process. ....	1-29
Because it allows adequate public involvement .....	1-29
Because it has substantive legal requirements only in limited instances .....	1-29
Because it works well when done right.....	1-30
Because it is important to the quality of life .....	1-30
Should rather focus on non-controversial projects.....	1-30
65. Public Concern: The CEQ Task Force should consider that there is no need to streamline NEPA. ....	1-30
Because NEPA poses little burden on federal agency actions .....	1-30
Because EIS's are only needed for a small minority of major projects likely to significantly affect the environment .....	1-30
Because constricting or eliminating the environmental review process will have only a minimal effect on the time it takes to deliver a project .....	1-31
Because NEPA merely establishes procedural requirements to ensure that the agency and the public fully consider the environmental ramifications of major actions.....	1-31
Because proposals pushed by critics of NEPA will lessen its environmental protection value and lead to projects opposed by the public .....	1-31
Because streamlining NEPA will come at the cost of the very thing NEPA is meant to ensure—adequate study, public involvement, and alternative development .....	1-31
66. Public Concern: The CEQ Task Force should not weaken NEPA. ....	1-32
By introducing flexibility to exempt certain actions.....	1-32
Because it ensures legitimate effects analysis .....	1-33
67. Public Concern: The CEQ Task Force should recognize that it's possible to fix the process without weakening NEPA's role. ....	1-33
68. Public Concern: The CEQ Task Force should strengthen NEPA. ....	1-33
69. Public Concern: The CEQ Task Force should enhance the NEPA process. ....	1-33
70. Public Concern: The CEQ Task Force should ensure that any changes to NEPA increase informed decisionmaking and public participation.....	1-34
NEPA Implementation .....	1-34
NEPA Implementation General .....	1-34
71. Public Concern: The CEQ Task Force should encourage effective implementation of NEPA. ....	1-34
By maintaining its current flexibility.....	1-34
To reduce abuse .....	1-34
To reduce disharmony and acrimony .....	1-34
72. Public Concern: The CEQ Task Force should consider that the complexity of NEPA implementation makes it easy for project opponents to delay or halt the process. ....	1-35
73. Public Concern: The CEQ Task Force should address the use of NEPA to justify predetermined decisions. ....	1-35
74. Public Concern: The CEQ Task Force should consider that otherwise successful NEPA processes are sometimes frustrated by lack of follow-through and subsequent support.....	1-35

75. Public Concern: The CEQ Task Force should establish a paradigm that integrates NEPA with other political, social, and analytic frameworks. ....	1-36
76. Public Concern: The CEQ Task Force should create an incentive in the NEPA process to work toward a single solution that accommodates multiple interests.....	1-36
77. Public Concern: The CEQ Task Force should require NEPA review to occur close to the time of project implementation. ....	1-36
78. Public Concern: The CEQ Task Force should encourage agencies to follow a logical sequence in planning.....	1-37
79. Public Concern: The CEQ Task Force should address the role of NEPA in early planning. ....	1-37
80. Public Concern: The CEQ Task Force should encourage early NEPA planning.....	1-37
Should begin the NEPA review for pipeline projects before the filing of the application .....	1-38
So agencies can coordinate rather than duplicate review procedures required by other statutes .....	1-38
81. Public Concern: The CEQ Task Force should examine a synopsis of the SR 104 highway project regarding challenges in seeking early agency involvement. ....	1-38
Guidance/Implementing Regulations .....	1-39
82. Public Concern: The CEQ Task Force should clarify NEPA guidance. ....	1-39
By developing an administrative roadmap for implementing NEPA and defending it.....	1-39
By defining key terms .....	1-39
To enhance planning and decisionmaking processes.....	1-39
83. Public Concern: The CEQ Task Force should consider the NEPA guidance provided by the Federal Highway Administration in the form of manuals and handbooks.....	1-40
84. Public Concern: The CEQ Task Force should address the conflicting court rulings and inconsistent agency guidelines regarding NEPA.....	1-40
85. Public Concern: The CEQ Task Force should amend the CEQ regulations.....	1-41
To reflect changes in federal environmental and resource management legislation since 1978, as well as agency experience with NEPA .....	1-41
To reflect case law and recent CEQ guidance .....	1-42
To help the executive branch regain control over the NEPA process.....	1-42
To determine whether a project has significant effect on the human environment or not .....	1-42
To disallow actions that are not statutorily required .....	1-42
86. Public Concern: The CEQ Task Force should reemphasize CEQ's previous guidance to agencies and incorporate that guidance in the CEQ regulations.....	1-42
87. Public Concern: The CEQ Task Force should require NEPA implementing regulations to mirror CEQ regulations.....	1-43
88. Public Concern: The CEQ Task Force should clarify NEPA through authoritative rules, not guidance memoranda. ....	1-43
NEPA Application .....	1-43
89. Public Concern: The CEQ Task Force should direct agencies to concentrate their efforts only on those major federal actions truly having a significant effect on the human environment.....	1-43

Petitions, licenses, and major permits which result in significant effects.....	1-44
Forest plans .....	1-44
Multiple use programs.....	1-44
90. Public Concern: The CEQ Task Force should address the increasing application of NEPA to no- or low-impact projects.....	1-44
91. Public Concern: The CEQ Task Force should not exempt certain projects from NEPA review. ....	1-44
Fire fighting and fuel reduction, defense projects, mining, and oil/gas development .....	1-44
92. Public Concern: The CEQ Task Force should clarify that the extent of any NEPA process is limited to areas where federal jurisdiction is properly asserted. ....	1-44
Examples .....	1-45
93. Public Concern: The CEQ Task Force should consider general examples of NEPA implementation. ....	1-45
94. Public Concern: The CEQ Task Force should consider examples of effective NEPA implementation. ....	1-45
Montana Division of Natural Resources Council Division of State Lands .....	1-45
Boise National Forest Silver Creek Project .....	1-46
Sierra Nevada Framework and Yosemite National Park Management Plan .....	1-46
OSM Land's Unsuitable Petition for Mining EIS near Fall Creek Falls State Park.....	1-46
TVA Land Between the Lakes EIS.....	1-46
TVA Columbia Dam Land Disposition and Water Supply EIS's.....	1-46
DOE Cleanup of the Oak Ridge Reservation .....	1-47
Sound state policy development .....	1-47
95. Public Concern: The CEQ Task Force should consider examples of effective NEPA implementation with early involvement. ....	1-47
Aircraft Carrier Homeporting .....	1-47
Fire fighting facility .....	1-47
Waterfront security barrier.....	1-48
96. Public Concern: The CEQ Task Force should prepare case studies of ineffective practices.....	1-48
In order to caution agencies about improper actions .....	1-48
97. Public Concern: The CEQ Task Force should consider examples of NEPA abuses.....	1-48
Elimination of review for ocean activities.....	1-48
Elimination of review for timber harvest in national forests.....	1-48
Acceleration of coalbed methane development in Wyoming's Powder River Basin .....	1-49
Nationwide wetlands destruction.....	1-49
Highway expansion.....	1-49
Seismic exploration in Utah's Redrock Canyon Country.....	1-49
98. Public Concern: The CEQ Task Force should carry out an in-depth study of the misapplication of NEPA in the Animas-LaPlata project.....	1-49
Agency Compliance with NEPA .....	1-50
99. Public Concern: The CEQ Task Force should require agencies to comply with CEQ regulations and guidelines.....	1-50
By including more practical information on the CEQ website .....	1-51
Through use of an environmental planning strategy.....	1-51

To ensure consideration of reasonable, less environmentally harmful alternatives.....	1-52
To avoid economic and environmental costs .....	1-52
To avoid bad faith proposals.....	1-53
100. Public Concern: The CEQ Task Force should recognize that delays are caused by agency failure to comply with NEPA. ....	1-54
101. Public Concern: The CEQ Task Force should provide adequate guidance for agencies to comply with NEPA.....	1-54
With procedures detailed enough that agencies can be held accountable .....	1-55
102. Public Concern: The CEQ Task Force should investigate agencies that do not comply with NEPA. ....	1-55
103. Public Concern: The CEQ Task Force should recognize that there is a conflict of interest when the agency conducting the action is also the agency responsible for compliance with NEPA. ....	1-55
104. Public Concern: The CEQ Task Force should conduct a special NEPA compliance study on the Department of Defense.....	1-55
105. Public Concern: The CEQ Task Force should require regulatory or oversight agencies to legally enforce compliance with NEPA decisions.....	1-55
Consistent Application of NEPA.....	1-56
106. Public Concern: The CEQ Task Force should ensure consistent application of NEPA.....	1-56
To ascertain legally defensible planning processes .....	1-56
By streamlining the NEPA process .....	1-56
By establishing guidelines for all agencies to follow.....	1-57
By establishing objective criteria.....	1-57
By eliminating redundancy in the interpretation of NEPA.....	1-57
By making the post-decisional administrative review process more consistent.....	1-57
By ensuring that all agencies have the same appeal requirements.....	1-57
107. Public Concern: The CEQ Task Force should consider that vague implementing rules lead to unequal application of NEPA. ....	1-58
108. Public Concern: The CEQ Task Force should address the different NEPA requirements associated with different land allocations. ....	1-58
Funding for NEPA Processes .....	1-58
109. Public Concern: The CEQ Task Force should encourage agencies to allocate greater resources to the NEPA process.....	1-58
With outside resources controlled by the appropriate decisionmaking official.....	1-59
With resources openly and clearly identified.....	1-59
110. Public Concern: The CEQ Task Force should encourage the full funding of NEPA implementation.....	1-59
111. Public Concern: The CEQ Task Force should support state funding for NEPA. ....	1-59
112. Public Concern: The CEQ Task Force should support a shift in federal funding to states from cooperative agreements to block grants. ....	1-59
To give states the flexibility to establish their own environmental policies.....	1-59
113. Public Concern: The CEQ Task Force should support stable, non-grant federal funding for environmental assistance for small businesses. ....	1-59
NEPA ANALYSIS REQUIREMENTS .....	1-60
NEPA Analysis Requirements General.....	1-65

114. Public Concern: The CEQ Task Force should ensure adequate NEPA analysis.....	1-65
By requiring long-term environmental effects studies .....	1-66
By requiring analysis of all affected issues .....	1-66
115. Public Concern: The CEQ Task Force should not allow complex paperwork to diminish the need for environmental review on every project.....	1-66
116. Public Concern: The CEQ Task Force should clarify that analysis is required, regardless of how land is acquired by the agency. ....	1-66
117. Public Concern: The CEQ Task Force should require federal agencies, as the model for state agencies, to perform the highest level of environmental analysis.....	1-66
In view of their responsible position in safeguarding the environment .....	1-66
118. Public Concern: The CEQ Task Force should advise federal agencies not to defer analysis to state agencies. ....	1-67
119. Public Concern: The CEQ Task Force should encourage agencies to emphasize their agency mission in NEPA analysis. ....	1-67
120. Public Concern: The CEQ Task Force should clarify that supporting studies should be carried out by the agency prescribing the action. ....	1-67
121. Public Concern: The CEQ Task Force should encourage agencies not to defer analysis to subsequent NEPA stages.....	1-68
122. Public Concern: The CEQ Task Force should address the influence of target achievement pressure on NEPA analysis.....	1-68
123. Public Concern: The CEQ Task Force should properly classify projects for environmental review. ....	1-68
124. Public Concern: The CEQ Task Force should require the environmental community to show significant effects from a proposed action before NEPA analysis will be initiated. ....	1-69
125. Public Concern: The CEQ Task Force should allow agencies to build upon previous analyses and decisions for new NEPA projects. ....	1-69
126. Public Concern: The CEQ Task Force should require adequate taking implication assessment. ....	1-69
127. Public Concern: The CEQ Task Force should develop a new category of analysis—the Strategic Environmental Assessment.....	1-69
128. Public Concern: The CEQ Task Force should address the trend for indirect issues to become direct effects.....	1-69
Application of Analysis .....	1-70
129. Public Concern: The CEQ Task Force should eliminate study of small scale projects.....	1-70
130. Public Concern: The CEQ Task Force should advise agencies to address only effects pertinent to the proposed action.....	1-70
131. Public Concern: The CEQ Task Force should limit required information to that which indicates the proposed action will have significant effects. ....	1-70
132. Public Concern: The CEQ Task Force should advise agencies to provide only concise information regarding areas that could potentially be affected.....	1-70
133. Public Concern: The CEQ Task Force should encourage agencies to focus analysis on alternative management strategies to solve site-specific management issues. ....	1-71
134. Public Concern: The CEQ Task Force should advise agencies to analyze actual, on-the-ground effects, not just types of effects. ....	1-71

135. Public Concern: The CEQ Task Force should encourage agencies to analyze how the proposed decision will affect natural and social resources beyond the planning unit boundaries.....	1-71
136. Public Concern: The CEQ Task Force should tailor review requirements to area of country and local situation. ....	1-72
137. Public Concern: The CEQ Task Force should require agencies to limit analysis to issues within their jurisdiction. ....	1-72
Level of Analysis .....	1-72
138. Public Concern: The CEQ Task Force should address 'analysis paralysis.' .....	1-72
139. Public Concern: The CEQ Task Force should address the necessary level of information to be considered in environmental analysis.....	1-72
By granting agencies broad discretionary authority to determine the appropriate level of analysis .....	1-73
In the form of a "best compromise solution" .....	1-73
140. Public Concern: The CEQ Task Force should encourage agencies not to allow fear of appeals to dictate their level of analysis.....	1-73
141. Public Concern: The CEQ Task Force should not increase information or analysis requirements.....	1-74
To avoid more NEPA-based appeals.....	1-74
142. Public Concern: The CEQ Task Force should require agencies to conduct NEPA analysis on a scale equal to that of the effects from similar actions.....	1-74
Scope of Analysis.....	1-74
143. Public Concern: The CEQ Task Force and agencies should regain control over defining the scope and requirements for NEPA analysis. ....	1-74
144. Public Concern: The CEQ Task Force should address the temporal scope of analysis. ....	1-75
145. Public Concern: The CEQ Task Force should require adequate scoping.....	1-75
By including all interested persons in the significant issue identification process.....	1-76
146. Public Concern: The CEQ Task Force should require agencies to stay within the scope of the NOI for the project. ....	1-76
147. Public Concern: The CEQ Task Force should allow agencies to direct the scope of analysis to pertinent issues.....	1-76
148. Public Concern: The CEQ Task Force should encourage agencies to dismiss issues outside the scope of the analysis. ....	1-76
149. Public Concern: The CEQ Task Force should reduce scoping.....	1-77
Time and Expense of Analysis .....	1-77
150. Public Concern: The CEQ Task Force should address the time and expense of NEPA analysis.....	1-77
Through guidance on specific issues.....	1-78
151. Public Concern: The CEQ Task Force should consider statutory changes to NEPA to reduce the time and expense involved in NEPA analysis. ....	1-79
152. Public Concern: The CEQ Task Force should address the effect of NEPA expense—that high priority actions requiring NEPA analysis are put aside in favor of lower priority work that does not require NEPA analysis. ....	1-79
153. Public Concern: The CEQ Task Force should establish time limits for NEPA analysis.....	1-79

154. Public Concern: The CEQ Task Force should not establish time limits for NEPA analysis. ....	1-79
155. Public Concern: The CEQ Task Force should consider that the NEPA process is not delayed by required environmental analysis, but by lack of funding, local support, and project complexity. ....	1-80
156. Public Concern: The CEQ Task Force should consider that any delays caused by required environmental analysis are justified. ....	1-80
Meaning of Significance.....	1-80
157. Public Concern: The CEQ Task Force should clarify the meaning of significance. ....	1-80
158. Public Concern: The CEQ Task Force should clarify threshold significance. ....	1-81
Through review of NEPA history and determination of necessary level of analysis.....	1-81
159. Public Concern: The CEQ Task Force should review the original congressional understanding of “significant federal action.” ....	1-82
160. Public Concern: The CEQ Task Force should develop a recommended context and intensity worksheet or checklist for each potential environmental effect that agencies must complete to document why an effect is not significant. ....	1-82
Analysis of Risk and Uncertainty.....	1-82
161. Public Concern: The CEQ Task Force should require analysis to address scientific uncertainty. ....	1-82
162. Public Concern: The CEQ Task Force should require risk assessments. ....	1-84
Including analysis of consequences.....	1-84
163. Public Concern: The CEQ Task Force should direct agencies to include error analysis. ....	1-84
164. Public Concern: The CEQ Task Force should reinstate worst case scenario analysis. ....	1-85
165. Public Concern: The CEQ Task Force should advise against the “precautionary principle.”.....	1-85
Because it is not scientific.....	1-85
Cumulative Effects Analysis.....	1-85
Cumulative Effects Analysis General.....	1-85
166. Public Concern: The CEQ Task Force should clarify the definition of cumulative effects. ....	1-85
With regard to the scale of projects to be considered.....	1-85
167. Public Concern: The CEQ Task Force should require adequate cumulative effects analysis.....	1-85
By encouraging development of long-term data sets and analysis techniques essential for proper cumulative effects analysis .....	1-86
Should provide regulations for the adequate evaluation of indirect effects and connected actions .....	1-87
Should prohibit fragmentation of analysis.....	1-87
Should validate effects.....	1-88
In all documents.....	1-88
168. Public Concern: The CEQ Task Force should require agencies to coordinate cumulative effects analysis with other agencies operating in the same ecosystem. ....	1-88

169. Public Concern: The CEQ Task Force should encourage agencies not to use the distinction between programmatic and tiered analysis as an excuse to dismiss concerns over cumulative effects. ....	1-88
170. Public Concern: The CEQ Task Force should revise the CEQ regulations to reflect CEQ's Cumulative Effects Handbook.....	1-88
171. Public Concern: The CEQ Task Force should review recent court decisions regarding cumulative effects analysis.....	1-89
172. Public Concern: The CEQ Task Force should consider the history of cumulative effects analysis under the Endangered Species Act. ....	1-89
173. Public Concern: The CEQ Task Force should eliminate the requirement for cumulative effects analysis. ....	1-89
Or limit their scope .....	1-89
Or require all interested parties to fund the analysis on an equal basis .....	1-90
Application of Cumulative Effects Analysis .....	1-90
174. Public Concern: The CEQ Task Force should encourage more cumulative effects analysis at the project level.....	1-90
By promoting interagency collaboration on combined cumulative effects analysis for a given geographic area .....	1-90
175. Public Concern: The CEQ Task Force should require cumulative effects analysis at the regional level.....	1-90
And clarify that analysis of regional effects should meet full NEPA standards of procedure.....	1-91
176. Public Concern: The CEQ Task Force should require cumulative effects analysis of oil and gas drilling in western lands in one comprehensive, programmatic document. ....	1-91
177. Public Concern: The CEQ Task Force should not require NEPA projects that are designed to conform with local planning and zoning ordinances to undergo a cumulative effects analysis. ....	1-91
Level of Cumulative Effects Analysis .....	1-92
178. Public Concern: The CEQ Task Force should define cumulative effects parameters. ....	1-92
So that special interest groups cannot use documents as lengthy delays for projects .....	1-93
179. Public Concern: The CEQ Task Force should reverse the trend of requiring increasingly detailed cumulative effects analysis.....	1-93
Scope of Cumulative Effects Analysis.....	1-94
180. Public Concern: The CEQ Task Force should address the geographical scope of cumulative effects analysis.....	1-94
Analysis of Connected or Related Actions .....	1-94
181. Public Concern: The CEQ Task Force should clarify the meaning of "connected," "similar," and "related." .....	1-94
To exclude any action that is not funded at the time the Notice of Intent is published in the Federal Register .....	1-94
182. Public Concern: The CEQ Task Force should specify when connected and related actions must be considered in NEPA analysis.....	1-95
Should not allow mining companies to determine whether connected operations are treated as separate mines or as parts of a single operation ....	1-95
183. Public Concern: The CEQ Task Force should eliminate the requirement that connected actions be considered in the same EIS.....	1-95
184. Public Concern: The CEQ Task Force should eliminate analysis of connected actions.....	1-95

Examples .....	1-96
185. Public Concern: The CEQ Task Force should consider examples of EISs that lack adequate cumulative effects analysis.....	1-96
Cortez Gold Mines' South Pipeline Project.....	1-96
Newmont Mining Corporation's South Operations Area Project Amendment (SOAPA) .....	1-96
Quality of Research/Best Available Science .....	1-97
Quality General .....	1-97
186. Public Concern: The CEQ Task Force should ensure high quality agency research.....	1-97
By encouraging use of the best advice from the best sources.....	1-98
By encouraging use of reliable information .....	1-98
By encouraging use of objective studies .....	1-98
By encouraging use of 'outside' science .....	1-99
By encouraging use of information provided by interest groups .....	1-99
By requiring use of rigorous scientific methods .....	1-99
187. Public Concern: The CEQ Task Force should define best available science.....	1-100
As involving peer review, appropriate methods, logical reasoning, quantitative analysis, appropriate context, and adequate references .....	1-100
188. Public Concern: The CEQ Task Force should encourage the use of best available science.....	1-100
189. Public Concern: The CEQ Task Force should establish criteria for the use of the best available science in NEPA documents. ....	1-101
190. Public Concern: The CEQ Task Force should address the gap between the best available science and plan recommendations.....	1-101
And provide a direct link between the science used and the management implemented as part of the process record .....	1-102
191. Public Concern: The CEQ Task Force should require sufficient analysis to support conclusions. ....	1-102
192. Public Concern: The CEQ Task Force should evaluate the science used in EISs. ....	1-103
Including the track record of the science at actual mine sites.....	1-103
193. Public Concern: The CEQ Task Force should encourage agencies to develop consistent working relationships with both government and private researchers. ....	1-103
194. Public Concern: The CEQ Task Force should advise agencies to include an accurate description of the existing environment. ....	1-104
195. Public Concern: The CEQ Task Force should advise agencies not to over-state their analysis. ....	1-104
Office of Management and Budget's Guidelines.....	1-105
196. Public Concern: The CEQ Task Force should consider the Office of Management and Budget's guidelines regarding the quality of information. ....	1-105
197. Public Concern: The CEQ Task Force should clarify that all information in all NEPA documents is subject the OMB's guidelines. ....	1-105
Peer Review.....	1-106
198. Public Concern: The CEQ Task Force should require peer review. ....	1-106
199. Public Concern: The CEQ Task Force should require review of significant projects by independent scientific panels.....	1-107
Use of Data.....	1-107

200. Public Concern: The CEQ Task Force should require use of current data. ....	1-107
201. Public Concern: The CEQ Task Force should require use of adequate site-specific data. ....	1-107
202. Public Concern: The CEQ Task Force should recommend sampling or modeling when site-specific data is unavailable or difficult and costly to collect. ....	1-108
203. Public Concern: The CEQ Task Force should address data manipulation. ....	1-108
Use of References .....	1-108
204. Public Concern: The CEQ Task Force should require all reference material to contain peer reviewed data. ....	1-108
205. Public Concern: The CEQ Task Force should require a list of references for each resource issue. ....	1-108
206. Public Concern: The CEQ Task Force should require full, accurate bibliographic citations. ....	1-108
Accountability .....	1-109
207. Public Concern: The CEQ Task Force should require accountability for document information. ....	1-109
Should hold persons submitting information accountable for the legitimacy of the information.....	1-109
Should hold federal agencies to the same scientific standards to which scientists in non-federal roles must adhere.....	1-109
Should require the decision maker to certify that all information in the document is accurate .....	1-110
208. Public Concern: The CEQ Task Force should clarify the extent to which federal agencies that adopt a final EIS are responsible for ensuring that the EIS adequately supports the lead agency's decisions.....	1-110
209. Public Concern: The CEQ Task Force should require agencies to follow the federal policy on research misconduct. ....	1-111
Determination of Need and Development/Use of Alternatives .....	1-111
Determination of Need and Alternatives General .....	1-111
210. Public Concern: The CEQ Task Force should address the determination of need. ....	1-111
211. Public Concern: The CEQ Task Force should encourage agencies to focus on issue identification and examination of projects and alternatives. ....	1-111
212. Public Concern: The CEQ Task Force should streamline issue designation. ....	1-111
213. Public Concern: The CEQ Task Force should require agencies to define the purpose and need of projects according to public benefit, not applicant intent. ....	1-111
214. Public Concern: The CEQ Task Force should encourage agencies to involve the public when determining the purpose and need for most projects.....	1-112
215. Public Concern: The CEQ Task Force should not limit the analysis of purpose and need and development of alternatives.....	1-112
216. Public Concern: The CEQ Task Force should caution agencies against making changes to the proposed action and alternatives late in the process.....	1-112

217. Public Concern: The CEQ Task Force should consider what factors should guide alternative development. ....	1-112
218. Public Concern: The CEQ Task Force should sponsor a conference/workshop to address the identification of alternatives, and publish the results of the workshop as a guidance document. ....	1-113
219. Public Concern: The CEQ Task Force should encourage agencies to engage stakeholders in developing alternatives. ....	1-113
220. Public Concern: The CEQ Task Force should consider whether the analysis of alternatives, in its present form, inherently frustrates the process of reaching decisions. ....	1-113
221. Public Concern: The CEQ Task Force should address agencies' tendency to predetermine the outcome based on the alternatives they choose. ....	1-114
222. Public Concern: The CEQ Task Force should direct agencies to initially analyze only the lead agency's proposed project; then, if needed, develop alternatives in response to the initial analysis. ....	1-114
Range of Alternatives .....	1-115
223. Public Concern: The CEQ Task Force should require consideration of an adequate range of alternatives. ....	1-115
To avoid appeals.....	1-115
For mining projects .....	1-115
224. Public Concern: The CEQ Task Force should require reasonable alternatives. ....	1-116
225. Public Concern: The CEQ Task Force should advise agencies that NEPA does not require the analysis of every conceivable alternative. ....	1-116
226. Public Concern: The CEQ Task Force should limit the number of alternatives. ....	1-116
By combining closely connected actions to avoid analytical difficulties.....	1-116
227. Public Concern: The CEQ Task Force should limit the number of required alternatives to two. ....	1-116
228. Public Concern: The CEQ Task Force should encourage agencies to consider a range of outcomes, as opposed to specific outcomes or fixed levels of outcomes. ....	1-117
No Action Alternative.....	1-117
229. Public Concern: The CEQ Task Force should address the appropriate use of the No Action Alternative. ....	1-117
230. Public Concern: The CEQ Task Force should define the No Action Alternative as the status quo. ....	1-117
231. Public Concern: The CEQ Task Force should require adequate analysis of the No Action Alternative.....	1-118
NEPA DOCUMENTATION .....	1-118
NEPA Documentation General .....	1-124
232. Public Concern: The CEQ Task Force should address the increasing emphasis on documentation. ....	1-124
233. Public Concern: The CEQ Task Force should focus on the internal aspects of the NEPA process regarding document preparation. ....	1-124
234. Public Concern: The CEQ Task Force should clarify that NEPA documents should be understood as a report of the planning process. ....	1-125
235. Public Concern: The CEQ Task Force should encourage creation of more concise joint NEPA documents. ....	1-125

236. Public Concern: The CEQ Task Force should reduce the number of specialists required to contribute to a NEPA document.....	1-125
237. Public Concern: The CEQ Task Force should address the fear of NEPA documents becoming too quickly outdated. ....	1-126
238. Public Concern: The CEQ Task Force should require agencies to complete NEPA documents before making decisions. ....	1-126
239. Public Concern: The CEQ Task Force should clarify that land and resource management plans are not decision documents, and that decisions regarding proposed activities should be limited to site-specific actions. ....	1-126
240. Public Concern: The CEQ Task Force should address the current limitations of the Federal Register Notice of Intent and document filing requirements for interagency coordination and public involvement. ....	1-126
241. Public Concern: The CEQ Task Force should require EAs and EISs to be subject to greater public scrutiny. ....	1-127
242. Public Concern: The CEQ Task Force should require all documentation to be available on the Internet. ....	1-127
243. Public Concern: The CEQ Task Force should address the concern that centralized documentation repositories are an intentional means to restrict access to critical data. ....	1-127
244. Public Concern: The CEQ Task Force should address agencies' tendency to delay or withdraw NEPA documents without explanation. ....	1-127
Quality of Documents .....	1-127
245. Public Concern: The CEQ Task Force should ensure adequate document preparation. ....	1-127
246. Public Concern: The CEQ Task Force should recognize that the quality of documents reflects the degree of NEPA compliance. ....	1-128
247. Public Concern: The CEQ Task Force should address the poor quality of NEPA documents produced by contractors. ....	1-128
248. Public Concern: The CEQ Task Force should address the deficiencies in the Bureau of Land Management project documents. ....	1-128
Number of Documents .....	1-129
249. Public Concern: The CEQ Task Force should reduce the number of NEPA documents. ....	1-129
250. Public Concern: The CEQ Task Force should encourage agencies to combine environmental reviews required by multiple regulatory acts into a single document. ....	1-129
251. Public Concern: The CEQ Task Force should quantify the number of EAs, FONSIs, and EISs created annually, the number of EISs challenged in court, and the number that are upheld. ....	1-130
To see how well NEPA is currently working .....	1-130
Application of Documents .....	1-130
252. Public Concern: The CEQ Task Force should clarify that NEPA documents ought to address resources, public concerns, desired future conditions, and management strategies. ....	1-130
253. Public Concern: The CEQ Task Force should encourage use of EISs for large-scale plans. ....	1-130
254. Public Concern: The CEQ Task Force should encourage use of EAs and EISs only for large-scale projects. ....	1-130
255. Public Concern: The CEQ Task Force should encourage use of EAs for large-scale highway projects. ....	1-131

256. Public Concern: The CEQ Task Force should consider that geographically broad EISs increase the risk of legal challenges.....	1-131
257. Public Concern: The CEQ Task Force should restrict the use of EAs to activities that threaten endangered species. ....	1-131
258. Public Concern: The CEQ Task Force should direct that EAs consider activities on adjacent lands. ....	1-131
259. Public Concern: The CEQ Task Force should minimize the need for CE or EA analysis for projects in already developed sites.....	1-131
260. Public Concern: The CEQ Task Force should not require EAs for long-standing resource management projects.....	1-131
261. Public Concern: The CEQ Task Force should address the trend to require states receiving grant monies to prepare an EA for actions appropriate for categorical exclusions. ....	1-132
262. Public Concern: The CEQ Task Force should eliminate the requirement to prepare NEPA documents for forest plan revisions or amendments.....	1-132
Time and Expense of Document Preparation.....	1-132
263. Public Concern: The CEQ Task Force should address the time and expense of NEPA document preparation. ....	1-132
264. Public Concern: The CEQ Task Force should set time limits for NEPA document preparation. ....	1-133
According to categories of actions .....	1-134
265. Public Concern: The CEQ Task Force should address the open-ended consultation processes.....	1-134
With a goal of either setting mandatory time periods or issuing guidance on conditional FONSI's and ROD's .....	1-134
Required Information in Documents.....	1-134
266. Public Concern: The CEQ Task Force should clarify the level of analysis needed in all documents. ....	1-134
267. Public Concern: The CEQ Task Force should address the requirement that all data be included in the document. ....	1-135
268. Public Concern: The CEQ Task Force should simplify NEPA documents by including only the current analysis.....	1-135
269. Public Concern: The CEQ Task Force should require the inclusion of specific information in all NEPA documents. ....	1-135
New Information and Supplemental Documentation .....	1-135
270. Public Concern: The CEQ Task Force should clarify that NEPA review is to be based on existing information.....	1-135
271. Public Concern: The CEQ Task Force should impose a time limit on consideration of new information.....	1-135
272. Public Concern: The CEQ Task Force should narrow the definition of new information.....	1-136
273. Public Concern: The CEQ Task Force should address the need to continually analyze new information.....	1-136
274. Public Concern: The CEQ Task Force should advise agencies to consider new information only when it points to data flaws or risks to public health.....	1-136
275. Public Concern: The CEQ Task Force should ensure that controversies requiring further documentation relate to scientific and biological disagreements, not philosophical disagreements. ....	1-136
276. Public Concern: The CEQ Task Force should define "new information" that necessitates a supplemental EIS. ....	1-136

By means of a reliability threshold .....	1-137
By means of a stop action threshold .....	1-137
277. Public Concern: The CEQ Task Force should eliminate the requirement for a supplemental EA. ....	1-138
278. Public Concern: The CEQ Task Force should clarify that there is no requirement for a supplemental EA.....	1-138
Relation Between Different NEPA Documents .....	1-138
EAs and EISs .....	1-138
279. Public Concern: The CEQ Task Force should address agencies' trend to require EISs for projects which previously only required EAs.....	1-138
280. Public Concern: The CEQ Task Force should address the trend to make EAs more like EISs.....	1-139
281. Public Concern: The CEQ Task Force should provide guidance on whether an EA or EIS is necessary.....	1-139
282. Public Concern: The CEQ Task Force should clarify that EAs should be used to determine whether an EIS is needed. ....	1-140
283. Public Concern: The CEQ Task Force should distinguish the procedural requirements for EAs and EISs.....	1-140
284. Public Concern: The CEQ Task Force should distinguish the analysis requirements for EAs and EISs.....	1-141
285. Public Concern: The CEQ Task Force should develop new requirements for EAs that differ in organization and contents from the requirements for EISs.....	1-141
286. Public Concern: The CEQ Task Force should require an EIS when an EA would serve as a functional EIS. ....	1-141
287. Public Concern: The CEQ Task Force should not require an EIS rather than an EA based on effects on employment.....	1-141
288. Public Concern: The CEQ Task Force should apply the same rules to EAs as to EISs.....	1-141
289. Public Concern: The CEQ Task Force should require EAs to be organized like EISs.....	1-141
290. Public Concern: The CEQ Task Force should clarify that EAs should not be used when EISs are clearly required. ....	1-142
291. Public Concern: The CEQ Task Force should advise USDA APHIS to develop a new implementing regulation revising 7 CFR Section 372.5 to eliminate the presumption that an EA will suffice rather than an EIS.....	1-142
EAs and FONSIs .....	1-144
292. Public Concern: The CEQ Task Force should define the required content of a FONSI and require it to be incorporated into the supporting EA.....	1-144
293. Public Concern: The CEQ Task Force should consider using FONSI instead of EAs. ....	1-144
Specific NEPA Documents .....	1-144
Federal Register Notice .....	1-144
294. Public Concern: The CEQ Task Force should require any Federal Register notice to prepare an EA or EIS to include a full description of the proposed action. ....	1-144
EAs.....	1-144
295. Public Concern: The CEQ Task Force should provide guidance on the preparation of EAs.....	1-144
296. Public Concern: The CEQ Task Force should simplify the requirements for EAs. ....	1-145

297. Public Concern: The CEQ Task Force should clarify that EA requirements should result in shorter documents. ....	1-145
298. Public Concern: The CEQ Task Force should allow lead agencies to decide how best to prepare EAs for individual projects. ....	1-145
299. Public Concern: The CEQ Task Force should consider that CEQ regulations currently afford adequate flexibility regarding EAs. ....	1-146
300. Public Concern: The CEQ Task Force should clarify that preparation of an EA is a judicial review requirement, not a NEPA requirement. ....	1-146
301. Public Concern: The CEQ Task Force should revise CEQ regulations to appropriately restrict judicial review of EAs. ....	1-146
So that they may fulfill their intended role as “concise public documents” that “briefly” determine that either a FONSI or an EIS will be the next step ...	1-146
302. Public Concern: The CEQ Task Force should expand the scope of the EA to address legal responsibilities. ....	1-146
303. Public Concern: The CEQ Task Force should require EAs to include maps and figures. ....	1-147
304. Public Concern: The CEQ Task Force should clarify guidance on the evaluation of alternatives in EAs. ....	1-147
Should advise agencies to consider alternatives in EA's only when there are unresolved conflicts .....	1-147
305. Public Concern: The CEQ Task Force should require minimum scoping efforts for EAs. ....	1-147
306. Public Concern: The CEQ Task Force should establish a minimum public notice and review requirement for EAs. ....	1-148
307. Public Concern: The CEQ Task Force should clarify that EAs need only be made available to the public; public comment is not required. ....	1-148
308. Public Concern: The CEQ Task Force should require agencies to make EAs public via the Internet. ....	1-149
309. Public Concern: The CEQ Task Force should eliminate the requirement to produce EAs. ....	1-149
310. Public Concern: The CEQ Task Force should examine the Office of Inspector General's review of the Forest Service's use of EAs. ....	1-149
EISs .....	1-150
311. Public Concern: The CEQ Task Force should review the track record of EISs. ....	1-150
To see what works best .....	1-150
312. Public Concern: The CEQ Task Force should set boundaries regarding what needs to be evaluated in EISs. ....	1-150
313. Public Concern: The CEQ Task Force should clarify that the intent of an EIS is to analyze actions that will <i>adversely</i> affect the human environment. ....	1-150
314. Public Concern: The CEQ Task Force should consider that management flexibility, in and of itself, is not a resource or an action and has no place in EISs. ....	1-150
315. Public Concern: The CEQ Task Force should address agencies' trend to require multiple EISs. ....	1-151
Including the effect of multiple EIS's on the length of the NEPA process .....	1-151
316. Public Concern: The CEQ Task Force should address agency abuse of the EIS requirement. ....	1-151
317. Public Concern: The CEQ Task Force should eliminate the requirement to produce EISs. ....	1-151

FONSI.....	1-152
318. Public Concern: The CEQ Task Force should provide guidance on the content of FONSI.....	1-152
319. Public Concern: The CEQ Task Force should clarify the level of analysis required to support a FONSI.....	1-152
320. Public Concern: The CEQ Task Force should clarify when a FONSI is sufficient.....	1-152
321. Public Concern: The CEQ Task Force should soften requirements for a FONSI.....	1-152
322. Public Concern: The CEQ Task Force should explain how an agency can justify a FONSI for an individual proposal, when that proposal contributes to an effect that is already cumulatively significant.....	1-152
323. Public Concern: The CEQ Task Force should set criteria for the “convincing statement of reasons” why no EIS is required which the Ninth Circuit Court requires of a FONSI.....	1-153
Document Language and Formatting .....	1-153
324. Public Concern: The CEQ Task Force should encourage more accessible language in NEPA documents.....	1-153
325. Public Concern: The CEQ Task Force should standardize the definitions in NEPA documents.....	1-153
326. Public Concern: The CEQ Task Force should standardize structure and data presentation in NEPA documents.....	1-153
327. Public Concern: The CEQ Task Force should direct agencies to separate the “affected environment” and “environmental consequences” sections in NEPA documents.....	1-154
328. Public Concern: The CEQ Task Force should revise the EIS format with screening worksheets.....	1-154
329. Public Concern: The CEQ Task Force should give specific guidance to standardize EAs.....	1-154
Regarding length and number of alternatives .....	1-154
330. Public Concern: The CEQ Task Force should encourage use of a checklist format for EAs.....	1-154
331. Public Concern: The CEQ Task Force should provide consistent guidelines on format and content for EAs and FONSI.....	1-154
Examples .....	1-155
332. Public Concern: The CEQ Task Force should only consider examples of best practices from EAs or EISs that have been appealed or litigated.....	1-155
STAFFING AND TRAINING.....	1-155
Staffing and Training General.....	1-156
333. Public Concern: The CEQ Task Force should address the need for adequate staffing.....	1-156
334. Public Concern: The CEQ Task Force should recognize that the reason the NEPA process is slow is because land management employees are overworked.....	1-157
335. Public Concern: The CEQ Task Force should encourage agencies to streamline internal procedures and manage personnel effectively.....	1-157
336. Public Concern: The CEQ Task Force should encourage agencies to institute a performance based advancement and rewards system.....	1-157
337. Public Concern: The CEQ Task Force should address the wise use of agency resources and personnel for low-impact projects.....	1-157

338. Public Concern: The CEQ Task Force should encourage agencies to hire qualified scientists and managers.....	1-157
339. Public Concern: The CEQ Task Force should encourage agencies to allow hired experts to do their jobs as NEPA specialists. ....	1-158
340. Public Concern: The CEQ Task Force should develop a consistent position description for NEPA specialists. ....	1-158
341. Public Concern: The CEQ Task Force should encourage agencies to fund more specialists at the project level. ....	1-158
342. Public Concern: The CEQ Task Force should encourage agencies to give authority and responsibility to people for decisionmaking as related to their field of expertise. ....	1-158
343. Public Concern: The CEQ Task Force should address agency reliance on in-house expert opinions. ....	1-158
344. Public Concern: The CEQ Task Force should encourage agency personnel to represent agency decisions consistently. ....	1-159
345. Public Concern: The CEQ Task Force should encourage agencies to hold employees accountable for their actions. ....	1-159
346. Public Concern: The CEQ Task Force should encourage agencies to provide well trained editors and publishers to the districts. ....	1-159
347. Public Concern: The CEQ Task Force should encourage NEPA training for all agency personnel. ....	1-159
Use of Private Contractors .....	1-160
348. Public Concern: The CEQ Task Force should encourage the use of experts and professionals from the private sector. ....	1-160
Including local experts .....	1-161
349. Public Concern: The CEQ Task Force should encourage the use of private contractors. ....	1-161
350. Public Concern: The CEQ Task Force should encourage agencies to allow applicants and contractors to prepare Draft EAs and EISs. ....	1-161
351. Public Concern: The CEQ Task Force should discourage the use of private contractors. ....	1-161
Due to potential conflicts of interest .....	1-162
ID Teams .....	1-163
352. Public Concern: The CEQ Task Force should encourage better leadership and management of the ID team by the project decision maker. ....	1-163
353. Public Concern: The CEQ Task Force should require adequate leadership training for ID teams. ....	1-164
To lessen the tendency to promote personal agendas .....	1-164
354. Public Concern: The CEQ Task Force should address the qualifications of ID team members. ....	1-164
355. Public Concern: The CEQ Task Force should encourage agreement between ID team members regarding project goals and objectives. ....	1-164
356. Public Concern: The CEQ Task Force should encourage decision makers to define ID team members' writing responsibilities. ....	1-165
357. Public Concern: The CEQ Task Force should encourage agencies to improve the makeup, training, and expertise of staff teams working on ski area NEPA issues. ....	1-165
DECISIONMAKING AUTHORITY .....	1-165
Decisionmaking Authority General .....	1-166

358. Public Concern: The CEQ Task Force should encourage the CEQ and agencies to regain control over defining the requirements of NEPA.....	1-166
Rather than allowing the courts control.....	1-166
Role of Governments .....	1-167
359. Public Concern: The CEQ Task Force should consider that NEPA has proved to be the most significant process available for state input to major federal agency decisions. ....	1-167
360. Public Concern: The CEQ Task Force should encourage states to make a voluntary commitment to environmental stewardship.....	1-167
By going beyond the required minimum.....	1-167
361. Public Concern: The CEQ Task Force should encourage agencies to give more weight to elected officials when reaching final decisions. ....	1-167
362. Public Concern: The CEQ Task Force should advise agencies not to cater to local politicians.....	1-167
Role of Agencies .....	1-167
363. Public Concern: The CEQ Task Force should consider that U.S. agencies should set an example for the rest of the world.....	1-167
364. Public Concern: The CEQ Task Force should define the key roles and responsibilities of agencies involved in the NEPA process .....	1-168
365. Public Concern: The CEQ Task Force should require agencies to develop an internal accountability process for responsible management. ...	1-168
And ensure that designated program tasks are accomplished in an efficient, cost-effective and timely manner .....	1-168
366. Public Concern: The CEQ Task Force should give land managers the authority to act.....	1-168
Role of Interest Groups .....	1-168
367. Public Concern: The CEQ Task Force should advise agencies not to cater to special interests. ....	1-168
Corporate interests .....	1-169
368. Public Concern: The CEQ Task Force should eliminate loopholes in regulations for special interest groups. ....	1-169
369. Public Concern: The CEQ Task Force should address the degree to which special interests are allowed to dictate the terms of consultation. ....	1-169
370. Public Concern: The CEQ Task Force should advise imposing larger penalties on corporations that violate environmental regulations. ....	1-169
371. Public Concern: The CEQ Task Force should not allow special interests to use NEPA to drag out the process.....	1-170
372. Public Concern: The CEQ Task Force should not allow special interest groups to eliminate multiple uses on public lands. ....	1-170
373. Public Concern: The CEQ Task Force should advise discontinuing government-funded environmental agencies. ....	1-171
374. Public Concern: The CEQ Task Force should advise holding environmentalists accountable for their activities. ....	1-171
Role of Other Groups/The General Public .....	1-171
375. Public Concern: The CEQ Task Force should grant decisionmaking authority to unbiased, non-agency third parties.....	1-171
376. Public Concern: The CEQ Task Force should grant decisionmaking authority to scientists and conservationists. ....	1-171
377. Public Concern: The CEQ Task Force should require that NEPA clearly state the important roles that citizens have in the NEPA process. ....	1-171

378. Public Concern: The CEQ Task Force should never consider citizens, or groups of citizens, to be special interest groups or “competing interests.” ...	1-172
PUBLIC INVOLVEMENT .....	1-172
Public Involvement General .....	1-174
379. Public Concern: The CEQ Task Force should encourage adequate public involvement.....	1-174
By encouraging agencies to be responsive to the public.....	1-175
By encouraging early involvement of both regulatory agencies and the public .....	1-175
Without imposing unnecessary cost or burden.....	1-176
To maintain the integrity of the NEPA process .....	1-176
380. Public Concern: The CEQ Task Force should not weaken NEPA public involvement requirements. ....	1-177
381. Public Concern: The CEQ Task Force should encourage agencies to improve stakeholder participation.....	1-178
By clarifying the basis for stakeholder participation .....	1-178
By encouraging early involvement of key stakeholders .....	1-178
382. Public Concern: The CEQ Task Force should require the Environmental Protection Agency to provide those affected by its regulatory determinations the opportunity to comment.....	1-178
383. Public Concern: The CEQ Task Force should encourage involvement by independent scientists.....	1-178
384. Public Concern: The CEQ Task Force should implement a performance based acknowledgement system to utilize interested parties in a constructive manner.....	1-178
385. Public Concern: The CEQ Task Force should encourage agencies to seek human dimensions assistance from specialists in the private and/or academic community to facilitate public involvement activities. ....	1-179
386. Public Concern: The CEQ Task Force should require agencies to formalize a plan to avoid hindrances to effective public participation. ....	1-179
Agency Outreach Efforts.....	1-180
387. Public Concern: The CEQ Task Force should require agencies to adequately notify the public of proposed actions. ....	1-180
By providing adequate notification of scoping .....	1-181
By notifying nearby residents .....	1-181
By making better use of mailing lists of potential stakeholders and interest groups.....	1-181
388. Public Concern: The CEQ Task Force should establish criteria to determine which local governments to contact and how contact should be established. ....	1-181
389. Public Concern: The CEQ Task Force should encourage federal agencies to use a central point of contact when forwarding NEPA documents to states. ....	1-181
By following the example set by the Department of Energy.....	1-181
By using state clearinghouses .....	1-181
390. Public Concern: The CEQ Task Force should encourage agencies to provide the public with convenient access to information. ....	1-181
391. Public Concern: The CEQ Task Force should advise agencies to distribute free copies of environmental documents to each person who submits scoping comments. ....	1-182
By changing Section 1506.6(f) .....	1-182

By providing CD copies to those who can use them .....	1-182
392. Public Concern: The CEQ Task Force should publish in the Federal Register the full Environmental Protection Agency report prepared pursuant to the NEPA Process. ....	1-182
393. Public Concern: The CEQ Task Force should encourage agencies to provide adequate contact information regarding NEPA actions in the Federal Register. ....	1-182
394. Public Concern: The CEQ Task Force should provide a pamphlet describing the NEPA process to the public. ....	1-183
Public Meetings.....	1-183
395. Public Concern: The CEQ Task Force should require meetings to be held at appropriate locations.....	1-183
396. Public Concern: The CEQ Task Force should encourage agency personnel to interact with meeting participants at public meetings. ....	1-183
By using public meetings as a venue for explaining the proposed action and accepting comment .....	1-184
Through use of a round table format.....	1-184
397. Public Concern: The CEQ Task Force should consider that public meetings are not effective venues for meaningful public involvement. ....	1-185
Comment Periods.....	1-185
398. Public Concern: The CEQ Task Force should require adequate comment periods. ....	1-185
45 days from the date of receipt for EA's .....	1-185
90-days for all actions.....	1-185
90 to 120 days.....	1-186
Effective Public Comment .....	1-186
399. Public Concern: The CEQ Task Force should educate the public on how to effectively participate in the commenting process. ....	1-186
400. Public Concern: The CEQ Task Force should encourage the public to provide site-specific concerns and issues. ....	1-186
Agency Use of Public Comment .....	1-186
Use of Comment General .....	1-186
401. Public Concern: The CEQ Task Force should require agencies to accept comments.....	1-186
402. Public Concern: The CEQ Task Force should require agencies to immediately acknowledge receipt of comment.....	1-187
And provide an accurate response within five working days .....	1-187
403. Public Concern: The CEQ Task Force should require agencies to address all comments.....	1-187
404. Public Concern: The CEQ Task Force should encourage agencies to demonstrate sincere interest in public comment and concerns. ....	1-187
Agencies should consider public opinion as seriously as agency opinions ...	1-188
Analysis of Comment.....	1-188
405. Public Concern: The CEQ Task Force should encourage agencies to give greater weight to comments from residents and local and state elected officials. ....	1-188
406. Public Concern: The CEQ Task Force should encourage agencies to respect comments from all citizens, not just local residents. ....	1-189
407. Public Concern: The CEQ Task Force should encourage agencies to require voter consensus prior to implementing any regulatory measures....	1-189
Through use of an objective third party to report the level of support.....	1-190

408. Public Concern: The CEQ Task Force should clarify that the NEPA process is not a vote. ....	1-190
409. Public Concern: The CEQ Task Force should develop guidelines for handling eleventh hour comments.....	1-190
That last minute comments should not receive the same level of consideration as those offered earlier in the process .....	1-190
410. Public Concern: The CEQ Task Force should encourage agencies to dismiss comments and appeals that are out of the scope of the project. ....	1-191
411. Public Concern: The CEQ Task Force should encourage agencies to analyze substantive comment separately from statements of preference or personal values.....	1-191
412. Public Concern: The CEQ Task Force should consider that the Content Analysis Enterprise Team does not analyze public comment fairly.....	1-191
Form of Comment Submission.....	1-191
413. Public Concern: The CEQ Task Force should revise the process by which agencies treat faxes, e-mails, and form letters. ....	1-191
414. Public Concern: The CEQ Task Force should prohibit the submission of comments through electronic means.....	1-192
Collaboration .....	1-192
415. Public Concern: The CEQ Task Force should encourage agencies to cooperate with all interested parties. ....	1-192
Through early consultation.....	1-193
416. Public Concern: The CEQ Task Force should improve coordination between government agencies and the public.....	1-193
417. Public Concern: The CEQ Task Force should emphasize stakeholder collaboration.....	1-193
To ensure that significant issues are resolved early in the process .....	1-193
By changing the NEPA paradigm from confrontation to collaboration.....	1-193
418. Public Concern: The CEQ Task Force should encourage collaboration between environmental and corporate interest groups. ....	1-193
419. Public Concern: The CEQ Task Force should penalize collaborating participants who choose to appeal or litigate. ....	1-194
420. Public Concern: The CEQ Task Force should require agencies to implement a dispute resolution process. ....	1-194
RELATIONSHIP TO OTHER PLANNING PROCESSES.....	1-194
Licensing/Permitting Processes.....	1-196
Licensing/Permitting Processes General.....	1-196
421. Public Concern: The CEQ Task Force should address the required review for permitting processes.....	1-196
To minimize duplication of analysis and the public participation process.....	1-196
422. Public Concern: The CEQ Task Force should encourage more timely permitting processes. ....	1-196
423. Public Concern: The CEQ Task Force should streamline the permitting process to conduct field trials and experimental releases.....	1-197
424. Public Concern: The CEQ Task Force should support increased funding for permitting processes.....	1-197
425. Public Concern: The CEQ Task Force should encourage collaboration with stakeholders in licensing processes.....	1-197
426. Public Concern: The CEQ Task Force should waive all subsequent review levels during the NEPA review of the application preparation process. ....	1-197

If it can be documented that there has been adequate coordination with resource agencies .....	1-197
Grazing .....	1-198
427. Public Concern: The CEQ Task Force should expedite the permitting process for grazing. ....	1-198
428. Public Concern: The CEQ Task Force should consider that the complex weaving of varying interests with long-term and annual planning and permit issuance has made the application of NEPA contentious.....	1-199
429. Public Concern: The CEQ Task Force should advise agencies to conduct NEPA analysis at the time of the initial issuance of grazing permits, not at the time of reissuance. ....	1-199
430. Public Concern: The CEQ Task Force should allow grazing permits to be renewed if the agency fails to complete the renewal prior to their expiration.....	1-199
431. Public Concern: The CEQ Task Force should not require separate NEPA analysis for grazing permits.....	1-199
432. Public Concern: The CEQ Task Force should not impose the NEPA process on permit renewals for unchanged historic use.....	1-200
433. Public Concern: The CEQ Task Force should not allow agencies to use the permit renewal process as a means to end grazing. ....	1-201
Oil, Gas, and Mineral Development .....	1-201
434. Public Concern: The CEQ Task Force should create a more efficient permitting process for mining.....	1-201
435. Public Concern: The CEQ Task Force should require agencies to involve the public in the permitting process for mining. ....	1-201
436. Public Concern: The CEQ Task Force should require agencies to adequately notify the public of applications for a permit to drill.....	1-202
437. Public Concern: The CEQ Task Force should review the Bureau of Land Management's public notification practices, particularly in the area of application for permit to drill approvals.....	1-203
438. Public Concern: The CEQ Task Force should provide the Bureau of Land Management with recommendations to ensure more meaningful public involvement prior to the selling of oil and gas lease parcels.....	1-204
439. Public Concern: The CEQ Task Force should require the Bureau of Land Management to notify landowners who are affected by split-estate situations. ....	1-205
440. Public Concern: The CEQ Task Force should encourage applicants to work with stakeholders before filing applications.....	1-205
Should review "Ideas for Better Stakeholder Involvement in the Interstate Natural Gas Pipeline Planning Pre-Filing Process" .....	1-205
441. Public Concern: The CEQ Task Force should review violations of the prohibition against interim actions in the oil and gas program throughout the West. ....	1-206
And provide recommendations to the Bureau of Land Management regarding Section 1506.1 .....	1-206
Utilities .....	1-206
442. Public Concern: The CEQ Task Force should facilitate coordination among agencies to issue electric utility permits in a timely manner.....	1-206
443. Public Concern: The CEQ Task Force should allow applicants for electricity permits to request the designation of a lead federal agency.....	1-207

444. Public Concern: The CEQ Task Force should improve federal permitting processes to retain existing electricity facilities and increase investment in electric infrastructure. ....	1-207
445. Public Concern: The CEQ Task Force should reduce the cost and time in the hydroelectric relicensing process. ....	1-207
446. Public Concern: The CEQ Task Force should require the Federal Energy Regulatory Commission to allow NEPA scoping as part of the pre-license application, and to include all regulatory conditions in its document. ....	1-207
To ensure that the license satisfies the public interest standard of section 10(a)(1) of the Federal Power Act .....	1-207
Other .....	1-208
447. Public Concern: The CEQ Task Force should revise the wetland permitting process to more adequately protect wetlands. ....	1-208
448. Public Concern: The CEQ Task Force should address the economic effects of requiring the NEPA process for general construction permits. ....	1-208
Examples .....	1-209
449. Public Concern: The CEQ Task Force should consider examples of effective permitting processes. ....	1-209
The Salinas Valley Watershed Permit Coordination Program .....	1-209
Transportation Planning .....	1-209
450. Public Concern: The CEQ Task Force should encourage the Department of Transportation to improve its planning processes. ....	1-209
By integrating existing resource protection efforts .....	1-210
By streamlining its planning and environmental regulatory approach .....	1-210
By streamlining the NEPA process for federally funded transportation construction .....	1-210
451. Public Concern: The CEQ Task Force should encourage better integration of transportation planning and NEPA planning. ....	1-211
With respect to analysis and public involvement .....	1-211
452. Public Concern: The CEQ Task Force should clarify expectations of transportation agencies and environmental agencies. ....	1-211
453. Public Concern: The CEQ Task Force should encourage transportation agencies to advance projects that reflect environmental sensitivity as a priority. ....	1-212
454. Public Concern: The CEQ Task Force should encourage agencies to consider the effects of transportation decisions on minority groups. ....	1-212
To comply with environmental justice regulations .....	1-212
455. Public Concern: The CEQ Task Force should give standing to guidance derived from transportation planning processes. ....	1-213
456. Public Concern: The CEQ Task Force should consider that although very few federally funded highway projects require in-depth environmental study, most such projects are very expensive. ....	1-213
457. Public Concern: The CEQ Task Force should address delays in transportation planning. ....	1-213
458. Public Concern: The CEQ Task Force should provide a mechanism for local agencies to better communicate with the Federal Highway Administration via the State Transportation Department in resolving NEPA issues in a timely manner .....	1-214
459. Public Concern: The CEQ Task Force should address the use of the review process by local residents to delay rail line construction projects. ....	1-214

Winter Recreation Planning .....	1-215
460. Public Concern: The CEQ Task Force should encourage agencies to achieve the goals and objectives outlined in the December 4, 1996, Memorandum of Understanding regarding management of winter recreational sites. ....	1-215
461. Public Concern: The CEQ Task Force should advise agencies not to impose more requirements on the ski industry than on other land users. ....	1-215
RELATION TO LAWS, REGULATIONS, AND POLICIES .....	1-215
Relation to Laws, Regulations, and Policies General.....	1-218
462. Public Concern: The CEQ Task Force should encourage legislation which promotes effective public involvement but discourages project opponents from manipulating the process for their own interests.....	1-218
463. Public Concern: The CEQ Task Force should encourage states to adopt "Little NEPA" laws.....	1-219
464. Public Concern: The CEQ Task Force should encourage the implementation of stricter laws that focus on improving the health of public lands. ....	1-219
465. Public Concern: The CEQ Task Force should encourage the Administration not to weaken existing laws that protect the environment. ...	1-219
466. Public Concern: The CEQ Task Force should discourage Congress from suspending environmental laws.....	1-219
Specific Laws/Acts .....	1-220
Antiquities Act.....	1-220
467. Public Concern: The CEQ Task Force should encourage legislation to amend the Antiquities Act. ....	1-220
468. Public Concern: The CEQ Task Force should advise the Administration not to use the Antiquities Act to avoid complying with NEPA. ....	1-220
Appeals Reform Act.....	1-221
469. Public Concern: The CEQ Task Force should encourage revision of the Appeals Reform Act and NEPA .....	1-221
To protect collaborative efforts from litigation.....	1-221
Clean Air Act.....	1-221
470. Public Concern: The CEQ Task Force should encourage revision of the Clean Air Act compliance requirements. ....	1-221
471. Public Concern: The CEQ Task Force should encourage a clear guidance document for the New Source Review Program. ....	1-222
Data Quality Act.....	1-222
472. Public Concern: The CEQ Task Force should require all NEPA documents to comply with the Data Quality Act. ....	1-222
Endangered Species Act .....	1-222
473. Public Concern: The CEQ Task Force should encourage the reconsideration of the Endangered Species Act. ....	1-222
474. Public Concern: The CEQ Task Force should encourage modification of the Endangered Species Act. ....	1-222
475. Public Concern: The CEQ Task Force should support the streamlining of the Endangered Species Act. ....	1-222
Through revision of the consultation process.....	1-222
476. Public Concern: The CEQ Task Force should encourage the repeal of the Endangered Species Act. ....	1-223
Equal Access to Justice Act.....	1-223

477. Public Concern: The CEQ Task Force should encourage the revision of the Equal Access to Justice Act. ....	1-223
By limiting the payments law firms receive from the government for environmental litigation .....	1-223
Farmland Protection Act and Farmland Policy Protection Act.....	1-224
478. Public Concern: The CEQ Task Force should integrate NEPA with the Farmland Protection Act and the Farmland Policy Protection Act.....	1-224
By incorporating a Land Evaluation and Site Assessment Review .....	1-224
Federal Advisory Committee Act .....	1-225
479. Public Concern: The CEQ Task Force should encourage the revision of the Federal Advisory Committee Act. ....	1-225
Because it limits agencies' ability to cooperate with affected members of the public .....	1-225
Federal Fungicide, Insecticide, and Rodenticide Act; and Food Quality Protection Act.....	1-225
480. Public Concern: The CEQ Task Force should address redundancies between NEPA; the Federal Fungicide, Insecticide, and Rodenticide Act; and the Food Quality Protection Act.....	1-225
Regarding evaluation of herbicide safety .....	1-225
Freedom of Information Act.....	1-225
481. Public Concern: The CEQ Task Force should require agencies to proactively manage information that may be needed in response to Freedom of Information Act requests. ....	1-225
482. Public Concern: The CEQ Task Force should not allow Freedom of Information Act requests for incomplete biological evaluations and assessments. ....	1-226
General Mining Law .....	1-226
483. Public Concern: The CEQ Task Force should encourage review of the General Mining Law of 1872. ....	1-226
Indoor Radon Abatement Act .....	1-226
484. Public Concern: The CEQ Task Force should require the Department of Housing and Urban Development to comply with the 1988 Indoor Radon Abatement Act. ....	1-226
Unfunded Mandates Reform Act .....	1-227
485. Public Concern: The CEQ Task Force should consider the Unfunded Mandates Reform Act, as applied to the Federal Advisory Committee Act, in the context of cooperating agency relationships. ....	1-227
Other .....	1-228
486. Public Concern: The CEQ Task Force should support Larry Craig's draft bill "Public Lands Planning and Management Improvement Act of 2002." ...	1-228
487. Public Concern: The CEQ Task Force should consider the Expedited Airport System Enhancement Initiative.....	1-228
488. Public Concern: The CEQ Task Force should review the current application of wetlands law.....	1-228
489. Public Concern: The CEQ Task Force should follow the intent of U.S.C. 44, Chapter 3506, NEPA Section 1500.1, NEPA 1501.7.....	1-228
Appeals Process.....	1-229
Appeals Process General.....	1-229
490. Public Concern: The CEQ Task Force should encourage agencies to legally defend their projects.....	1-229

By building contingency time into the NEPA process for appeal and litigation work by the ID team.....	1-229
491. Public Concern: The CEQ Task Force should define processes in order to withstand legal challenges. ....	1-229
492. Public Concern: The CEQ Task Force should recognize that judicious rulemaking will reduce NEPA procedural burdens and litigation vulnerability. ....	1-229
493. Public Concern: The CEQ Task Force should develop an administrative resolution process for checks and balances short of expensive litigation regarding issues of non-compliance. ....	1-229
494. Public Concern: The CEQ Task Force should consider legal and procedural reforms that protect developers from ongoing legal challenges. ....	1-230
495. Public Concern: The CEQ Task Force should encourage development of a non-appealable "Core Plan" for public land management. ....	1-230
Which is developed through the EIS process but is not subject to executive, legislative, or judicial review.....	1-230
496. Public Concern: The CEQ Task Force should require NEPA lawsuits to be heard in a corresponding district court. ....	1-231
497. Public Concern: The CEQ Task Force should encourage the elimination of the appeals process.....	1-231
Revision of the Appeals Process .....	1-231
498. Public Concern: The CEQ Task Force should address the use of the appeals process to delay or halt projects. ....	1-231
Should not allow environmental groups to tie up the process .....	1-231
Should not allow lawsuits to cripple the natural resource base .....	1-232
499. Public Concern: The CEQ Task Force should revise the appeals process to restrict or discourage litigation. ....	1-232
Should not allow appeals under 36 CFR 215 to result in an automatic stay ..	1-233
Should limit appeals to proposed actions consistent with a land use plan.....	1-233
Should require the appellant to exhaust administrative remedies before the appeal is considered.....	1-233
Should require appeals to contain substantive grounds before being considered.....	1-233
Should include minimum informational standards for appeals .....	1-233
Should allow excluded decisions to proceed without the possibility of administrative appeal.....	1-234
Should require short agency response time and outside scientific review .....	1-234
Should include a statute of limitations in NEPA .....	1-234
500. Public Concern: The CEQ Task Force should address the cost of appeals.....	1-234
Should not allow special interest groups to file lawsuits that are ultimately paid for by the American public .....	1-234
Should require appellants to bear the cost of appeals shown to be frivolous ..	1-234
Should require appellants to pay for the administrative record.....	1-235
Appeal Standing .....	1-235
501. Public Concern: The CEQ Task Force should establish criteria for becoming an interested party.....	1-235
502. Public Concern: The CEQ Task Force should amend the definition of interested party to include only those who are economically affected. ....	1-235

503. Public Concern: The CEQ Task Force should give economic interests the same standing to challenge NEPA actions as that given to environmental interests. ....	1-235
504. Public Concern: The CEQ Task Force should treat project applicants as indispensable parties to any litigation. ....	1-236
505. Public Concern: The CEQ Task Force should create filing dates requiring interested parties to express their concerns up front during the comment period. ....	1-236
Regulatory Requirements .....	1-237
506. Public Concern: The CEQ Task Force should tighten NEPA implementation regulations. ....	1-237
507. Public Concern: The CEQ Task Force should integrate NEPA with other regulatory requirements. ....	1-237
508. Public Concern: The CEQ Task Force should encourage practices that adequately respond to state and local agency regulatory and proprietary concerns on new project proposals. ....	1-238
509. Public Concern: The CEQ Task Force should grant states the flexibility to demonstrate compliance with the Environmental Protection Agency within the parameters of federal programs. ....	1-238
510. Public Concern: The CEQ Task Force should require NEPA planning in coastal zones to include a Coastal Zone Management Act Consistency Determination. ....	1-238
511. Public Concern: The CEQ Task Force should address the over-application of NEPA to the Federal Aid in Fish and Wildlife Restoration Programs. ....	1-239
512. Public Concern: The CEQ Task Force should assess how the Office of Management and Budget information quality guidelines will affect timely decisions under the NEPA process. ....	1-239
513. Public Concern: The CEQ Task Force should address the conflict between NEPA demands for disclosure of alternatives and statutory prohibitions against disclosure of proprietary and competition sensitive information. ....	1-239
And provide guidance regarding the necessary level of public disclosure .....	1-239
American Indian Interests .....	1-242
514. Public Concern: The CEQ Task Force should determine who is an interested American Indian. ....	1-242
515. Public Concern: The CEQ Task Force should address the preservation of American Indian sacred sites as a function of NEPA. ....	1-242
516. Public Concern: The CEQ Task Force should address the effects of the NEPA process on the Pine Ridge Reservation. ....	1-242
ENVIRONMENTAL CONSIDERATIONS OF PLANNING .....	1-243
Environmental Considerations General. ....	1-246
517. Public Concern: The CEQ Task Force should encourage protection of the environment. ....	1-246
Should encourage lead agencies to select alternatives to minimize environmental effects. ....	1-246
518. Public Concern: The CEQ Task Force should require agencies to make substantive environmental progress. ....	1-247
Federal Communications Commission. ....	1-247
United States Border Patrol .....	1-247
Department of the Interior .....	1-247

Department of Agriculture.....	1-247
Department of Transportation.....	1-248
Public land agencies.....	1-248
Army Corps of Engineers and Environmental Protection Agency.....	1-248
519. Public Concern: The CEQ Task Force should discourage agencies from using NEPA to avoid taking immediate action to prevent environmental degradation. ....	1-248
520. Public Concern: The CEQ Task Force should require the ecological ramifications of agency inaction to be substantively incorporated into planning and decisionmaking processes.....	1-248
521. Public Concern: The CEQ Task Force should advise agencies to consider only environmental risk, not monetary cost.....	1-249
522. Public Concern: The CEQ Task Force should advise agencies to address environmental concerns at the site-specific level.....	1-249
523. Public Concern: The CEQ Task Force should establish thresholds of significance for each environmental resource. ....	1-249
524. Public Concern: The CEQ Task Force should encourage agencies to consider the potential negative environmental effects of changing land allocations. ....	1-250
525. Public Concern: The CEQ Task Force should provide thresholds or parameters where staged requirements can be implemented based on magnitude of effect. ....	1-250
526. Public Concern: The CEQ Task Force should require agencies to establish the non-existence of ecological interdependencies associated with proposed activities.....	1-250
527. Public Concern: The CEQ Task Force should require NEPA analysis to include the synergistic effects of chemicals and hazardous materials in air, water, or in soil at various pH levels.....	1-250
528. Public Concern: The CEQ Task Force should require the Department of Housing and Urban Development to include radon in its environmental review procedures. ....	1-250
529. Public Concern: The CEQ Task Force should encourage examination of recent books on ecosystem management, diversity, and sustainability.....	1-251
530. Public Concern: The CEQ Task Force should advise the Administration to participate in the Kyoto Accords.....	1-251
531. Public Concern: The CEQ Task Force should advise the Administration to participate in Earth Summit II. ....	1-251
Air .....	1-251
532. Public Concern: The CEQ Task Force should address the adequacy of air quality analysis in NEPA documents.....	1-251
533. Public Concern: The CEQ Task Force should amend NEPA to protect air quality.....	1-252
534. Public Concern: The CEQ Task Force should require the Federal Highway Administration to conduct NEPA analysis of air toxics and induced traffic. ....	1-252
535. Public Concern: The CEQ Task Force should address mobile emissions. ...	1-253
536. Public Concern: The CEQ Task Force should encourage various actions to reduce mobile emissions. ....	1-253
537. Public Concern: The CEQ Task Force should require upwind sources of pollution to meet Clean Air Act requirements through enforcement of the Environmental Protection Agency's State Implementation Plan. ....	1-253

538. Public Concern: The CEQ Task Force should encourage congressional hearings to focus awareness on interstate ozone transport issues. ....	1-253
Water .....	1-254
539. Public Concern: The CEQ Task Force should advise the strengthening of water quality regulations. ....	1-254
540. Public Concern: The CEQ Task Force should encourage periodic review or institutionalized performance audits for federal water programs. ....	1-254
To demonstrate that policy focus remains sound and that limited resources are well spent .....	1-254
541. Public Concern: The CEQ Task Force should require peer review for actions affecting water delivery. ....	1-254
542. Public Concern: The CEQ Task Force should encourage increased federal funding for water infrastructure improvements. ....	1-254
543. Public Concern: The CEQ Task Force should standardize the definition of wetland. ....	1-254
To aid interagency cooperation .....	1-254
544. Public Concern: The CEQ Task Force should encourage the preservation of rivers. ....	1-255
The Mattaponi River. ....	1-255
The Pamunkey River .....	1-255
545. Public Concern: The CEQ Task Force should support federal funding for management study of lakes to determine the optimum way to manage diverse activities on public water bodies. ....	1-255
546. Public Concern: The CEQ Task Force should include the marine environment in NEPA requirements. ....	1-255
547. Public Concern: The CEQ Task Force should advise the City of Newport News to recover water from existing sources. ....	1-256
Agricultural Land .....	1-257
548. Public Concern: The CEQ Task Force should reissue guidance regarding the loss of agricultural resources. ....	1-257
And clarify that agricultural resources include both land and water .....	1-257
Wildlife/Habitat .....	1-257
549. Public Concern: The CEQ Task Force should encourage agencies to use sector professionals early in the project development phase to identify important habitat areas. ....	1-257
550. Public Concern: The CEQ Task Force should encourage the Forest Service to revise its process for viability and the related “well-distributed populations” issue. ....	1-257
551. Public Concern: The CEQ Task Force should encourage the participation of the Fish and Wildlife Service in the preparation of state documents regarding threatened and endangered species. ....	1-258
Vegetation .....	1-258
552. Public Concern: The CEQ Task Force should encourage better understanding of vegetative structure and composition principles. ....	1-258
553. Public Concern: The CEQ Task Force should encourage the preservation of some old growth forests. ....	1-258
554. Public Concern: The CEQ Task Force should direct agencies to manage harvested land through reforestation. ....	1-258
555. Public Concern: The CEQ Task Force should address the effect of NEPA on management of invasive weeds. ....	1-258
NEPA expense is resulting in the inability to treat invasive weeds .....	1-259

556. Public Concern: The CEQ Task Force should advise agencies to control exotic plants. ....	1-259
Emergency Circumstances.....	1-259
557. Public Concern: The CEQ Task Force should improve the process for determining emergency circumstances.....	1-259
By creating a category for significant actions needing urgent review .....	1-259
558. Public Concern: The CEQ Task Force should consider mechanisms to clarify accelerated environmental review of important projects. ....	1-260
Through use of “arrangements” under 40 CFR 1506.11 to deal with emergencies.....	1-260
Forest Health Management .....	1-260
559. Public Concern: The CEQ Task Force should address the effect of NEPA on forest health treatments.....	1-260
Agencies are unable to treat insect infestations in a timely manner .....	1-260
560. Public Concern: The CEQ Task Force should address the need for states to comply with the NEPA process in order to procure federal funding for forest health treatments. ....	1-261
Fire Management .....	1-261
561. Public Concern: The CEQ Task Force should address the effect of NEPA on fire plan projects.....	1-261
562. Public Concern: The CEQ Task Force should consider that NEPA requirements result in the inability to thin fuel loads in a timely manner. ....	1-261
563. Public Concern: The CEQ Task Force should consider that wildfires are an indication of the lack of agency land management and failure of decisionmaking processes.....	1-261
564. Public Concern: The CEQ Task Force should encourage appropriately conducted timber harvest and controlled burns.....	1-262
Natural Resource Development.....	1-262
Natural Resource Development General .....	1-262
565. Public Concern: The CEQ Task Force should consider the consequences of allowing developers free reign on public land.....	1-262
566. Public Concern: The CEQ Task Force should encourage the development of federal lands.....	1-262
To utilize natural resources.....	1-262
567. Public Concern: The CEQ Task Force should advise against designating permanent roadless areas. ....	1-263
To allow sustainable resource management.....	1-263
Timber .....	1-263
568. Public Concern: The CEQ Task Force should consider the environmental effects of timber harvest. ....	1-263
569. Public Concern: The CEQ Task Force should encourage the Forest Service to adopt sustainable timber management as its guiding philosophy. ....	1-263
570. Public Concern: The CEQ Task Force should streamline the appeals process for timber sales.....	1-263
571. Public Concern: The CEQ Task Force should address the effects of NEPA on salvage harvest.....	1-263
572. Public Concern: The CEQ Task Force should encourage selective timber harvest.....	1-263
Rather than clearcutting .....	1-263

573. Public Concern: The CEQ Task Force should discourage subsidization of timber harvest. ....	1-264
574. Public Concern: The CEQ Task Force should use NEPA to prohibit timber harvest. ....	1-264
Mining .....	1-264
575. Public Concern: The CEQ Task Force should recognize the importance of the NEPA process for mining. ....	1-264
For mining permit decisions .....	1-264
For mining effects analyses .....	1-264
Because it provides for analysis of site-specific conditions.....	1-265
576. Public Concern: The CEQ Task Force should encourage agencies with jurisdiction over mining operations to cooperate in scoping and preparation of EISs for new mines. ....	1-265
577. Public Concern: The CEQ Task Force should require agencies to include bonding calculations and justifications in NEPA documents on mining projects.....	1-265
578. Public Concern: The CEQ Task Force should clarify that agencies cannot selectively use uncertainty to disregard alternatives in mining projects. ....	1-266
579. Public Concern: The CEQ Task Force should consider that NEPA is used by agencies to delay or halt mining operations by lessees.....	1-266
580. Public Concern: The CEQ Task Force should examine the report "Hardrock Mining on Federal Land" to evaluate environmental effects of proposed mineral exploration and mining projects. ....	1-267
Other .....	1-267
581. Public Concern: The CEQ Task Force should advise the prohibition of construction near danger zones. ....	1-267
SOCIOECONOMIC CONSIDERATIONS OF PLANNING .....	1-267
Socioeconomic Considerations General .....	1-269
582. Public Concern: The CEQ Task Force should apply NEPA to all components of the environment, not just humans. ....	1-269
Remove the word "human" .....	1-269
583. Public Concern: The CEQ Task Force should modify 40 CFR 1508.14 to interpret human environment to include the natural and physical environment, and the relationship of people with that environment. ....	1-269
584. Public Concern: The CEQ Task Force should not assume that human use of public lands involves a predator-prey situation. ....	1-269
585. Public Concern: The CEQ Task Force should include language in NEPA to protect private property rights.....	1-270
586. Public Concern: The CEQ Task Force should encourage targeted tax credits for redevelopment of brownfields. ....	1-270
Socioeconomic Analysis .....	1-270
Socioeconomic Analysis General .....	1-270
587. Public Concern: The CEQ Task Force should require analysis of socioeconomic effects.....	1-270
At the local level.....	1-271
Social Analysis .....	1-271
588. Public Concern: The CEQ Task Force should require analysis of social issues.....	1-271
Including heritage, tradition, and cultural and historic resources .....	1-272

589. Public Concern: The CEQ Task Force should give greater weight to the human, social and cultural elements of analysis than to biological elements.....	1-272
590. Public Concern: The CEQ Task Force should require analysis of distributional effects.....	1-272
Economic Analysis.....	1-273
591. Public Concern: The CEQ Task Force should require adequate economic analysis. ....	1-273
592. Public Concern: The CEQ Task Force should ensure that economic indicators are based on cumulative effects. ....	1-273
593. Public Concern: The CEQ Task Force should require economic analyses to be prepared by a qualified professional economist. ....	1-273
594. Public Concern: The CEQ Task Force should require a cost benefit analysis in relation to proposed alternatives. ....	1-273
Including future costs and benefits .....	1-274
595. Public Concern: The CEQ Task Force should require agencies to incorporate ecosystem services into the economic analysis. ....	1-275
596. Public Concern: The CEQ Task Force should require agencies to justify their rejection of alternatives on economic grounds. ....	1-276
597. Public Concern: The CEQ Task Force should fund economic effects studies done by local entities. ....	1-276
Access .....	1-276
598. Public Concern: The CEQ Task Force should address the effect of NEPA on access to public lands. ....	1-276
Should consider that lengthy NEPA planning denies people access to public lands .....	1-276
Should not allow the NEPA process to be used to deny access to and use of public lands .....	1-277
Economy/Employment .....	1-277
599. Public Concern: The CEQ Task Force should consider the effects of the NEPA process on local economies, businesses, and individuals. ....	1-277
Mining companies .....	1-277
Minerals industry .....	1-277
Farmers and ranchers .....	1-277
600. Public Concern: The CEQ Task Force should recognize that NEPA imposes significant regulatory burdens on the building industry.....	1-278
601. Public Concern: The CEQ Task Force should discourage laws that allow abuse by minority interests and that put jobs and companies at risk.....	1-278
<b>Chapter 2 Technology, Information Management, and Information Security</b>	<b>2-1</b>
USE OF TECHNOLOGY GENERAL .....	2-1
602. Public Concern: The CEQ Task Force should encourage agencies to use current technologies.....	2-1
To enhance the NEPA process .....	2-1
To provide quality data collection and analysis.....	2-1
To advance environmental protection.....	2-1
603. Public Concern: The CEQ Task Force should give lead agencies the responsibility for integrating information technology into the NEPA process.....	2-2
604. Public Concern: The CEQ Task Force should conduct workshops to determine information technology needs. ....	2-2

605. Public Concern: The CEQ Task Force should create a technology framework to address specific areas. ....	2-2
Project administration .....	2-2
Work flow management .....	2-2
Document/text management .....	2-2
Geographic Information System management .....	2-2
Interactive documents .....	2-3
Comment submission/content analysis .....	2-3
Record keeping .....	2-3
Output to various media .....	2-3
606. Public Concern: The CEQ Task Force should consider examples of using information technology to enhance the NEPA process. ....	2-3
Bureau of Land Management's technology template.....	2-3
Florida Department of Transportation Efficient Transportation Decision Making and Re: NEPA Community of Practice.....	2-3
607. Public Concern: The CEQ Task Force should encourage agencies to focus on the result, not the technology used to get there. ....	2-3
SOURCES OF DATA AND BACKGROUND STUDIES.....	2-4
Sources Used .....	2-5
General Electronic Sources.....	2-5
608. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses. ....	2-5
Internet and intranet.....	2-5
Project- or agency-established websites .....	2-5
Web based document management systems.....	2-5
CD'S and GIS databases .....	2-5
Resource specific electronic databases .....	2-5
Hypertext documents .....	2-6
Media Sources .....	2-6
609. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses. ....	2-6
Print media such as magazines, newspapers, etc.....	2-6
Satellite media such as Discover, Public TV .....	2-6
MSNBC desktop alerts, CNN and New York Times e-mail alerts .....	2-6
Documents/Reports .....	2-6
610. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses. ....	2-6
Forest plans .....	2-6
Previous NEPA project documents .....	2-6
Other forest-level programmatic documents and white papers.....	2-6
Forest M and E reports and E-J state demographic reports .....	2-6
Environmental Information documents and other NEPA documents .....	2-6
Economics-project work plans, timber sale data, and other income sources data .....	2-6
305 (b) reports and 303 (d) reports .....	2-7
Annual site environmental reports.....	2-7
Scientific ecoregional assessments to supplement state data.....	2-7
Safety assessment documents .....	2-7
Technical standards, manuals, and handbooks .....	2-7
Forest Service Handbook 1909.15, and CEQ regulations at 40 CFR 1500-1508.....	2-7

Compartment records and local historical records .....	2-7
Agency scientific reports.....	2-7
Current literature .....	2-7
Technical literature .....	2-8
Published scientific literature .....	2-8
Peer-reviewed data published in scientific journals and/or presented at conferences.....	2-8
Recent books on ecosystem management and silviculture.....	2-8
Surveys/Inventories/Maps/Models/etc.....	2-8
611. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses.....	2-8
Field surveys .....	2-8
Project- and forest-level survey data .....	2-8
State wildlife, aquatic, water, air surveys and data .....	2-8
State and federal agency research and databases such as the US Geological Survey's GAP Land Cover Assessment and the Forest Service's Forest Inventory and Assessment .....	2-8
Field surveys of vegetating community types, cultural resources, wetlands, sensitive wildlife species, vehicular traffic, and sensitive noise receptors .....	2-8
Published source materials such as National Wetland Inventory maps and soil surveys.....	2-8
Visual FX and state natural heritage inventory.....	2-9
Wetlands inventory .....	2-9
In-house inventory .....	2-9
Internally developed wetland inventory and archeological databases .....	2-9
Transportation atlas.....	2-9
Predictive models and trend analyses .....	2-9
USGS topographic maps.....	2-9
Predictive noise, vibration and air quality modeling .....	2-9
Geospatial libraries.....	2-9
Monitoring programs.....	2-9
Tract data to address potential environmental justice issues .....	2-9
Agency or Other Public Offices .....	2-10
612. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses.....	2-10
Public agencies .....	2-10
Consultations with federal, state and local agencies.....	2-10
Congressional research service.....	2-10
Internal databases and those of the Department of Natural Resources, Environmental Protection Agency, Army Corps of Engineers, Fish and Wildlife Service, National Parks Service, state and local resource agencies, academia, and the public.....	2-10
Defense Environmental Network and Information Exchange and additional federal agencies .....	2-10
U.S. Census Bureau.....	2-10
General Accounting Office.....	2-11
Research centers, universities, and special interest organizations that offer scientific or statistical data.....	2-11
Research data from local experimental forest, research station, and researchers .....	2-11

Wisconsin Department of Transportation Information Management/GIS Workbench .....	2-11
State Fish and Game Department.....	2-11
Cooperative Fish and Wildlife research units .....	2-11
Pacific Southwest Experiment Station.....	2-11
Forest Service library .....	2-11
Libraries and media .....	2-11
Former landowner records at the county clerk's office .....	2-11
Automated Geographic Reference Center .....	2-11
Agency Specialists .....	2-12
613. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses. ....	2-12
Staff expertise and reviews .....	2-12
State and federal resource professionals .....	2-12
Local, state, and federal biologists .....	2-12
Supervisor's Office specialists.....	2-12
Groups/Organizations .....	2-12
614. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses. ....	2-12
Professional organizations .....	2-12
Non-profit and foundation organizations.....	2-12
Conservation and sportsmen's oriented groups .....	2-12
E-mails from environmental groups.....	2-13
Interested publics.....	2-13
Affected population .....	2-13
Expert consultants .....	2-13
Other .....	2-13
615. Public Concern: The CEQ Task Force should consider what sources of existing data are used to prepare or comment on NEPA analyses. ....	2-13
Laws and regulations governing the agency's actions.....	2-13
Regional appeals and litigation compendiums .....	2-13
Locally generated data.....	2-13
Applicant-supplied data on the nature and scope of the proposed action.....	2-13
Probability analyses, such as those related to train-vehicular accidents and train derailments .....	2-14
Vehicular traffic analyses such as rail-to-truck and truck-to-rail freight conversions.....	2-14
NRCS, SHPO .....	2-14
Government training .....	2-14
Microfiche .....	2-14
616. Public Concern: The CEQ Task Force should consider the type of information collected for data and background studies.....	2-14
Geographic area, size and complexity of operation, type of livestock, USFS or BLM permit, riparian versus non-riparian, seasonal versus year long usage .....	2-14
Suggested Criteria/Sources .....	2-14
617. Public Concern: The CEQ Task Force should establish information-gathering criteria. ....	2-14
With collection needs based on objectives and issues connected to the proposal.....	2-14
Including complete referencing practices .....	2-14

618. Public Concern: The CEQ Task Force should encourage on-line access to information.....	2-15
Should encourage agencies to make environmental review documents available electronically.....	2-15
Should provide interactive links to referenced material .....	2-15
Should provide one location that provides questions from the public and the most recent information responses .....	2-15
Should encourage development of a system through which the public could access via the internet all information relevant to a NEPA project.....	2-15
Should encourage agencies to provide a web site where scientific literature is summarized .....	2-16
Should encourage agencies to develop a central public domain on-line illustrated environmental glossary that could be key word linked to on-line EIS's.....	2-16
Should require agencies to provide documents and data used to support Decision Notices or Record of Decision documents on their websites .....	2-16
Should require agencies to provide access to NEPA information sources .....	2-16
619. Public Concern: The CEQ Task Force should encourage the use of background data from scientific studies only.....	2-16
620. Public Concern: The CEQ Task Force should encourage agencies to conduct yearly terrain studies as a form of information gathering. ....	2-17
621. Public Concern: The CEQ Task Force should encourage the use of computer modeling. ....	2-17
To provide guidance only.....	2-17
622. Public Concern: The CEQ Task Force should avoid overreliance on computer modeling technology. ....	2-17
623. Public Concern: The CEQ Task Force should encourage agencies to better utilize guidance documents provided by NEPANet and CEQ studies. ....	2-18
624. Public Concern: The CEQ Task Force should encourage agencies to accept their own data for decisionmaking purposes.....	2-18
625. Public Concern: The CEQ Task Force should encourage agencies to provide visual representation of current and desired conditions. ....	2-18
626. Public Concern: The CEQ Task Force should give the public equal access to all NEPA analysis data. ....	2-18
627. Public Concern: The CEQ Task Force should encourage agencies to implement effective Environmental Management Standards.....	2-19
To conduct baseline resource studies .....	2-19
628. Public Concern: The CEQ Task Force should encourage all states to develop GIS inventories.....	2-19
To facilitate more effective environmental system management.....	2-19
629. Public Concern: The CEQ Task Force should balance technological data assessment with the need to make decisions in a timely manner. ....	2-19
BARRIERS TO USE OF INFORMATION TECHNOLOGY.....	2-19
Barriers .....	2-21
Access.....	2-21
630. Public Concern: The CEQ Task Force should consider the barriers to use of information technology. ....	2-21
Inoperable websites and unavailable electronic information .....	2-21
Lack of access to data stored on other servers.....	2-22
Inaccessible and privileged information .....	2-22

“Turf” barriers around critical data .....	2-22
Refusal of U.S. Fish and Wildlife Service biologists to release relevant data .....	2-22
Lack of timely receipt of information .....	2-22
Lack of access to technology in rural communities .....	2-22
Usability .....	2-23
631. Public Concern: The CEQ Task Force should consider the barriers to use of information technology. ....	2-23
User-friendliness of technology .....	2-23
Dissimilar, non-user friendly administrative review processes .....	2-23
Lack of web site uniformity .....	2-23
Changes in web site address .....	2-23
Lack of a standard technology protocol .....	2-23
Process complexity and conflict resulting from new technologies .....	2-23
Lack of interactive mechanisms .....	2-24
Lack of high-speed data transfer capabilities .....	2-24
Inability to use GIS to its fullest capacity at the district level .....	2-24
Compatibility of GIS systems and data formats .....	2-24
Problems of scale with GIS information .....	2-24
Inability to use tools on individual PC's .....	2-24
Lack of software to download documents .....	2-24
Documents in pdf format .....	2-25
Training .....	2-25
632. Public Concern: The CEQ Task Force should consider the barriers to use of information technology. ....	2-25
Lack of trained personnel .....	2-25
Lack of knowledge of available sources .....	2-25
Lack of technology expertise .....	2-25
Inadequate training on use of available tools .....	2-25
Inadequate training on use of standard software such as MSWord and Excel .....	2-25
Inadequate number of MIS trained people .....	2-25
Funding .....	2-26
633. Public Concern: The CEQ Task Force should consider the barriers to use of information technology. ....	2-26
Limited financial and staff resources .....	2-26
Cost to maintain management systems .....	2-26
Lack of funding for local predictive models .....	2-26
Quality/Accuracy of Data .....	2-26
634. Public Concern: The CEQ Task Force should consider the barriers to use of information technology. ....	2-26
Ensuring data quality and credibility .....	2-26
Difficulty of verifying accuracy of data .....	2-26
Outdated information .....	2-26
Incorrect identification or positioning of resources .....	2-26
Inconsistent interpretation of research findings .....	2-27
Inconsistency between agency data layers .....	2-27
Inadequate website citations .....	2-27
Variability in sampling methods .....	2-27
Invalid statistical analysis .....	2-27
Subjective analysis .....	2-27

Citing of data that stakeholders have already corrected on previous EA's .....	2-27
Bias of information .....	2-27
False or misleading documents .....	2-27
Other .....	2-28
635. Public Concern: The CEQ Task Force should consider the barriers to use of information technology .....	2-28
Too many sources of information .....	2-28
Separately developed data in some agencies .....	2-28
Acceptance of technology by NEPA practitioners .....	2-28
Contracting mechanisms biased toward duplication of data .....	2-28
Information security/sensitivity .....	2-28
Limited comment time .....	2-28
Lack of human sensitivity and insight .....	2-29
Politically motivated processes .....	2-29
Factors Considered in Assessing the Quality of Information .....	2-29
Quality/Accuracy of Analysis .....	2-29
636. Public Concern: The CEQ Task Force should consider what factors are considered in assessing the quality of the information. ....	2-29
Adequacy of documentation .....	2-29
Compliance with minimum quality standards .....	2-29
Precision, accuracy and source of data .....	2-29
Degree of quantitative data provided .....	2-29
Extent to which the data applies to the NEPA document's planning site .....	2-29
Type of conclusions drawn from quantitative data .....	2-30
Range of viewpoints the information provides .....	2-30
Incomplete nature of environmental information .....	2-30
Lack of justification for new environmental requirements .....	2-30
Geographic consistency .....	2-30
Common sense .....	2-30
Methods/Standards .....	2-31
637. Public Concern: The CEQ Task Force should consider what factors are considered in assessing the quality of the information. ....	2-31
Source of data .....	2-31
Methods of data collection .....	2-31
Mapping and data collection standards .....	2-31
Whether the data was manipulated .....	2-31
Whether it was QA/AC performed .....	2-31
Collection and analysis methods for quantitative and qualitative information .....	2-31
Accessibility of evaluation measures .....	2-31
Quality indicators of measured data .....	2-31
Scientific validation .....	2-31
Validation through a monitoring program .....	2-32
Tests to evaluate model adequacy .....	2-32
Objectivity .....	2-32
638. Public Concern: The CEQ Task Force should consider what factors are considered in assessing the quality of the information. ....	2-32
Use of solid numerical data versus subjective opinion .....	2-32
Credentials and objectivity of the data collector .....	2-32
Peer Review/References .....	2-33

639. Public Concern: The CEQ Task Force should consider what factors are considered in assessing the quality of the information.....	2-33
Peer review.....	2-33
References .....	2-33
Use of scientifically referred journal materials .....	2-33
Timeliness.....	2-33
640. Public Concern: The CEQ Task Force should consider what factors are considered in assessing the quality of the information.....	2-33
Scale and timeliness .....	2-33
Frequency of updates .....	2-33
The age of the data and whether it has been updated since first taken .....	2-33
Other.....	2-34
641. Public Concern: The CEQ Task Force should consider what factors are considered in assessing the quality of the information.....	2-34
Tracking of projects.....	2-34
Natural or human caused effects to the site which would compromise the usefulness of the data.....	2-34
Whether the information would lock up a resource from public use.....	2-34
Susceptibility to litigation .....	2-34
Suggestions for Improving Quality .....	2-35
642. Public Concern: The CEQ Task Force should include only approved information in NEPA analyses.....	2-35
643. Public Concern: The CEQ Task Force should create criteria for determining the appropriate levels of analysis.....	2-35
In light of increasing technological capabilities .....	2-35
644. Public Concern: The CEQ Task Force should advise agencies to prioritize information acquired from objective sources.....	2-35
With research results of professional scientists ranked above the field observations of private landowners or other individuals who lack training and experience .....	2-35
645. Public Concern: The CEQ Task Force should require science-based information to comply with legal standards.....	2-36
Daubert v. Merrel Dow Pharmaceuticals, Inc., Data Quality Rule, and OMB Guidelines.....	2-36
646. Public Concern: The CEQ Task Force should require agencies to identify analysis sources in an accessible electronic format.....	2-36
Should include page numbers and citations in electronic NEPA documents .....	2-36
647. Public Concern: The CEQ Task Force should encourage agencies to electronically link references to past studies and analyses to the text of the document.....	2-36
To allow readers to verify information and conclusions .....	2-36
648. Public Concern: The CEQ Task Force should provide analysis models online for public review.....	2-37
INTERNAL DATABASES/OTHER SOURCES OF ENVIRONMENTAL INFORMATION .....	2-37
Internal Databases.....	2-38
649. Public Concern: The CEQ Task Force should encourage agencies to maintain databases of information collected for environmental documents.....	2-38
650. Public Concern: The CEQ Task Force should consider what internal databases are used.....	2-38

Both standing and project-specific databases.....	2-38
Both standing and project-specific databases for every threatened and endangered species .....	2-39
Project-specific databases of projects of interest .....	2-39
Third-party project specific databases .....	2-39
Wetlands and archeological resources databases .....	2-39
Water quality information databases.....	2-39
Historical air traffic count databases .....	2-39
Public involvement databases .....	2-39
FAA Environmental Network web site.....	2-39
Noise and air quality models.....	2-39
FAA Eastern Region environmental information for airports .....	2-40
Trend data.....	2-40
GIS and GISST .....	2-40
Historical information on timber sale targets and local economic conditions .....	2-40
Environmental Procedures manual.....	2-40
Environmental and transportation documentation.....	2-40
Protocols and Standardization in the Development or Maintenance of Databases .....	2-41
651. Public Concern: Federal Agencies should standardize data collection and storage formats.....	2-41
By using ISO 14001.....	2-41
And create more available NEPA project databases for the public .....	2-41
To provide public access and protection from faulty data .....	2-41
652. Public Concern: The CEQ Task Force should consider the difficulties of standardizing data and information. ....	2-42
653. Public Concern: The CEQ Task Force should ensure databases meet specific criteria.....	2-42
654. Public Concern: The CEQ Task Force should encourage agencies to share data for a standardized database.....	2-42
To streamline study and data collection processes.....	2-42
655. Public Concern: The CEQ Task Force should create standards for submitting NEPA information into a shared database. ....	2-43
And provide access to more databases .....	2-43
656. Public Concern: The CEQ Task Force should suggest protocols for databases which require third party reviews. ....	2-43
657. Public Concern: The CEQ Task Force should encourage agencies to maintain databases available to non-agency personnel.....	2-43
658. Public Concern: The CEQ Task Force should consider the extensive resources required for keeping databases consolidated and updated.....	2-43
Because of constant technological and scientific changes.....	2-43
659. Public Concern: The CEQ Task Force should provide a history of database updates. ....	2-44
To inform users of revisions.....	2-44
660. Public Concern: The CEQ Task Force should create a database of approved information. ....	2-44
To use in preparing NEPA documents.....	2-44
661. Public Concern: The CEQ Task Force should expand the use of GIS and other decision support tools.....	2-44
To create agency consistency and lessen resource needs.....	2-44

662. Public Concern: The CEQ Task Force should consider the databases that are currently maintained.....	2-44
The Living Environmental Baseline .....	2-44
663. Public Concern: The CEQ Task Force should support greater federal funding for baseline data on water resources.....	2-45
Funding for data on watershed yield, river flow, and groundwater level fluctuation .....	2-45
Funding for the federal gauging network throughout the entire country .....	2-45
664. Public Concern: The CEQ Task Force should encourage development of a publicly accessible federal database of brownfields. ....	2-45
INFORMATION MANAGEMENT AND RETRIEVAL TOOLS .....	2-46
Tools Used .....	2-46
665. Public Concern: The CEQ Task Force should consider what information management and retrieval tools are used. ....	2-46
Internally developed tools .....	2-46
NEPA management system (NEPAMS) .....	2-47
Environmental Impact Analysis Process (EIAP) .....	2-47
Web-based systems .....	2-47
Internet, with the ability to access PDF files, MS Word, Excel, Access, and Oracle .....	2-47
Google.com .....	2-47
Websites, except when documents are in PDF format .....	2-47
Microsoft software.....	2-47
Microsoft Excel .....	2-48
SPSS.....	2-48
ESRI software, specifically ArcGIS and ArcView.....	2-48
GIS .....	2-48
Statsgraph Plus, Statistix, and Quattro pro .....	2-48
Computer generated graphs and charts.....	2-48
Hard copy documents.....	2-48
Hard copy materials such as NWI maps and technology reports.....	2-48
Field experts .....	2-49
Suggestions/Concerns Regarding Tools.....	2-49
666. Public Concern: The CEQ Task Force should encourage the creation of better information management and retrieval tools.....	2-49
A centralized system of information .....	2-49
An electronic reference library.....	2-49
A standard program for project information and tracking .....	2-49
Widespread digital databases .....	2-50
Linking of CEQ's pollution prevention guidance to EPA's pollution prevention checklists.....	2-50
Identification and address of current executive orders applicable to NEPA analysis.....	2-50
Standardized dialogue .....	2-50
User-friendly tools .....	2-50
667. Public Concern: The CEQ Task Force should advise agencies to track numerous specific types of information. ....	2-51
668. Public Concern: The CEQ Task Force should maintain administrative records for rulemaking processes. ....	2-51
669. Public Concern: The CEQ Task Force should consider concerns with information management tools. ....	2-51

Timing of information release and comment period .....	2-51
Adequacy and uniformity of agencies' notification processes .....	2-51
COMMUNICATION TECHNOLOGY .....	2-51
Communication Technology General .....	2-53
670. Public Concern: The CEQ Task Force should encourage agencies to make all information available to the public.....	2-53
Through a mechanism easily accessible by the public.....	2-53
671. Public Concern: The CEQ Task Force should encourage agencies to create standardized websites for posting NEPA information. ....	2-53
672. Public Concern: The CEQ Task Force should encourage agencies to make research available early in the planning process. ....	2-53
673. Public Concern: The CEQ Task Force should coordinate with agencies to develop environmental information systems. ....	2-54
674. Public Concern: The CEQ Task Force should encourage agencies to base use of methods on community needs and the project's effects on social, economic, and environmental conditions. ....	2-54
675. Public Concern: The CEQ Task Force should recognize that present use of communication technology is out of date. ....	2-54
676. Public Concern: The CEQ Task Force should recognize that the cost of NEPA documents limits public access. ....	2-54
Preferred Methods of Conveying/Receiving Information.....	2-55
Electronic.....	2-55
677. Public Concern: The CEQ Task Force should consider what the preferred methods are for conveying and/or receiving information.....	2-55
Internet.....	2-55
Websites .....	2-55
Password protected websites .....	2-55
Intranet tools .....	2-55
CD-Rom .....	2-55
GISST .....	2-56
NEPAnet .....	2-56
NEPAssist .....	2-56
E-mail.....	2-56
Computer modeling .....	2-56
678. Public Concern: The CEQ Task Force should encourage agencies to ensure timely online access to federal plans, reports, research results, and other documents.....	2-56
Should format tables, charts, and other data to allow downloading and manipulation.....	2-56
679. Public Concern: The CEQ Task Force should encourage agencies to use a standardized format for posting NEPA documents. ....	2-57
In Word, WordPerfect, or Adobe.....	2-57
680. Public Concern: The CEQ Task Force should encourage development of a website for each state to post all NEPA actions and proposals.....	2-57
681. Public Concern: The CEQ Task Force should establish a single web- based NEPA document repository. ....	2-57
Through implementation of the e-government initiative.....	2-57
682. Public Concern: The CEQ Task Force should require that, due to the expense of printing EISs with large appendices, background analyses should at least be made available on the Internet. ....	2-58
Traditional – Hard Copies/Mail.....	2-58

683. Public Concern: The CEQ Task Force should consider what the preferred methods are for conveying and/or receiving information. ....	2-58
Traditional methods .....	2-58
Hard copies.....	2-58
U.S. Mail .....	2-58
Schedules of Proposed Actions by mail .....	2-58
Letters of notification.....	2-58
Fax.....	2-58
684. Public Concern: The CEQ Task Force should require agencies to provide hard copy documents upon request.....	2-59
At no charge .....	2-59
Media .....	2-59
685. Public Concern: The CEQ Task Force should consider what the preferred methods are for conveying and/or receiving information. ....	2-59
Newspapers.....	2-59
Television/radio announcements.....	2-59
Federal Register .....	2-59
Newsletters .....	2-59
Foreign language news articles, interpreters, sign language.....	2-60
Agency and Other Public Offices.....	2-60
686. Public Concern: The CEQ Task Force should consider what the preferred methods are for conveying and/or receiving information. ....	2-60
Public libraries and/or agency offices.....	2-60
Public Meetings/Public Involvement .....	2-60
687. Public Concern: The CEQ Task Force should consider what the preferred methods are for conveying and/or receiving information. ....	2-60
Public meetings, at accessible sites.....	2-60
Public workshops.....	2-60
Citizen advisory panels .....	2-60
Stakeholder involvement.....	2-60
Other.....	2-60
688. Public Concern: The CEQ Task Force should consider what the preferred methods are for conveying and/or receiving information. ....	2-60
Variety of methods.....	2-60
Combination of methods .....	2-61
For EIS filing purposes, five hard copies and a CD-ROM.....	2-61
Methods through which information is timely and accessible .....	2-61
Telephone.....	2-61
689. Public Concern: The CEQ Task Force should provide a method for the public to request environmental documents in the medium they choose. ....	2-61
Ineffective Methods of Conveying/Receiving Information .....	2-62
690. Public Concern: The CEQ Task Force should consider that some methods of conveying or receiving information are not effective.....	2-62
Public meetings .....	2-62
Libraries.....	2-62
Newspapers.....	2-62
Agency websites.....	2-62
E-mail .....	2-62
Internet-Based Public Involvement.....	2-62
691. Public Concern: The CEQ Task Force should provide adequate means for the public to submit comment through electronic methods. ....	2-62

692. Public Concern: The CEQ Task Force should encourage agencies to provide websites for public comment. ....	2-63
As long as the document being commented on is available in hard copy.....	2-63
With comments posted on the website prior to the end of the comment period .....	2-63
693. Public Concern: The CEQ Task Force should develop a public input module for NEPANet. ....	2-63
To use for dialog and suggestions.....	2-63
694. Public Concern: The CEQ Task Force should consider the benefits of soliciting public comment through e-mail notification. ....	2-64
695. Public Concern: The CEQ Task Force should require agencies to publish quarterly "Schedule of Proposed Action" reports. ....	2-64
To inform and gather input from the public .....	2-64
696. Public Concern: The CEQ Task Force should develop standards for electronically submitted comments. ....	2-64
697. Public Concern: The CEQ Task Force should develop methods to distinguish between computer generated e-mails and substantive e-mails.....	2-64
698. Public Concern: The CEQ Task Force should prohibit the implementation of computer software to review public comment. ....	2-64
699. Public Concern: The CEQ Task Force should not provide web-based mediums as the only method for public input. ....	2-65
Because it precludes some from participating.....	2-65
700. Public Concern: The CEQ Task Force should create an interagency NEPA information technology workgroup.....	2-65
To review and report on NEPA information technology strategies .....	2-65
701. Public Concern: The CEQ Task Force should consider examples of internet-based public involvement.....	2-65
EPA Region 6's external peer review exercise on the GISST .....	2-65
Surface Transportation Board's program .....	2-65
BALANCING PUBLIC INVOLVEMENT AND INFORMATION SECURITY .....	2-66
Balancing Public Involvement and Information Security General .....	2-67
702. Public Concern: The CEQ Task Force should work to minimize information security risks. ....	2-67
By developing security and confidentiality guidelines.....	2-67
By developing system and access control protocols.....	2-67
703. Public Concern: The CEQ Task Force should consider several factors in implementing information security measures. ....	2-67
704. Public Concern: The CEQ Task Force should follow Executive Order 12600. ....	2-68
In determining how to balance public involvement and information security.....	2-68
705. Public Concern: The CEQ Task Force should require agencies to train employees regarding balancing public involvement and information security. ....	2-68
706. Public Concern: The CEQ Task Force should require that agencies conduct hearings for actions considered controversial.....	2-68
General Emphasis on Information Security.....	2-68
707. Public Concern: The CEQ Task Force should advise agencies to give greater weight to security than to public involvement. ....	2-68

708. Public Concern: The CEQ Task Force should ensure that adequate policy and security review is enforced. ....	2-69
Given the post September 11, 2001 security standards .....	2-69
General Emphasis on Public Access .....	2-69
709. Public Concern: The CEQ Task Force should not limit the public's access to information by implementing security measures. ....	2-69
710. Public Concern: The CEQ Task Force should encourage a liberal NEPA policy regarding public access to information. ....	2-69
And give priority to information security only in the narrowest circumstances .....	2-69
711. Public Concern: The CEQ Task Force should recognize that increased security concerns have diminished the quality of information available to the public. ....	2-70
712. Public Concern: The CEQ Task Force should encourage agencies to make information available from several different sources. ....	2-70
713. Public Concern: The CEQ Task Force should be aware of situations where state law requires release of information. ....	2-70
714. Public Concern: The CEQ Task Force should not constrain dissemination of information to public lands committees or other interested parties. ....	2-70
715. Public Concern: The CEQ Task Force should advise agencies not to be concerned with information security with respect to public comment. ....	2-70
Treatment of Sensitive Information .....	2-70
716. Public Concern: The CEQ Task Force should consider what types of information should not be made public. ....	2-70
Sensitive data such as economic and culturally significant information .....	2-70
Information on tribal historical sites .....	2-70
Personnel data.....	2-71
Information that could potentially endanger a project or personnel.....	2-71
Private citizen information .....	2-71
Personal identifying information that constitutes an invasion of privacy.....	2-71
Only information that could jeopardize private citizens or national security ....	2-71
Information that is legally classified.....	2-72
Trade secrets and commercial and financial information.....	2-72
Business plans and related information.....	2-72
Facility locations relative to receptors.....	2-72
717. Public Concern: The CEQ Task Force should ensure the security of existing computer data and modeling.....	2-73
718. Public Concern: The CEQ Task Force should encourage agencies to use software that protects electronically posted documents from editing by third parties. ....	2-73
719. Public Concern: The CEQ Task Force should consider developing two separate versions of NEPA documents.....	2-73
To separate confidential information from public information.....	2-73
And provide the volume containing high risk information only to those who provide identification .....	2-74
720. Public Concern: The CEQ Task Force should give more detail to resource management agencies. ....	2-74
721. Public Concern: The CEQ Task Force should encourage agencies to provide non-government biologists with otherwise sensitive data regarding the location of threatened and endangered species. ....	2-74

722. Public Concern: The CEQ Task Force should encourage agencies to treat statutorily protected material the same as classified information..... 2-74
723. Public Concern: The CEQ Task Force should consider the inconsistency in Department of Energy sites on the electronic availability of both historic and time-sensitive review drafts of public documents. .... 2-74

### **Chapter 3 Federal and Intergovernmental Collaboration 3-1**

#### **FEDERAL AND INTERGOVERNMENTAL COLLABORATIVE RELATIONSHIPS ..... 3-1**

##### **Federal and Intergovernmental Collaborative Relationships General ..... 3-4**

724. Public Concern: The CEQ Task Force should encourage and increase intergovernmental collaboration..... 3-4
- In NEPA regulations ..... 3-4
725. Public Concern: The CEQ Task Force should address the willingness of the federal government to collaborate with local governments..... 3-4
726. Public Concern: The CEQ Task Force should encourage stronger roles for state and local governments. .... 3-5
- By giving state and local governments more involvement in the NEPA process..... 3-5
- By encouraging local government participation early in NEPA planning ..... 3-5
- By encouraging federal agencies to contact local government entities and inform them of their role in the collaboration process..... 3-5
- By clarifying cooperation and coordination language in resource statutes ..... 3-6
- By requiring an early participation status and consistency review form signed by a representative of the local government as part of NEPA documentation ..... 3-6
727. Public Concern: The CEQ Task Force should allow state and local governments to participate in the NEPA process at a level below joint lead but above the general public. .... 3-6
728. Public Concern: The CEQ Task Force should encourage greater state responsibility for administering NEPA processes. .... 3-6
- By providing for state certification to administer NEPA programs ..... 3-6
- By delegating authority to state environmental agencies for actions on environmentally benign projects ..... 3-6
729. Public Concern: The CEQ Task Force should encourage federal agencies to coordinate NEPA planning with state and local environmental review requirements. .... 3-7
- To achieve a single multi-agency, state policy decision ..... 3-7
730. Public Concern: The CEQ Task Force should recognize that collaborative NEPA processes work best in states with existing environmental impact laws..... 3-8
731. Public Concern: The CEQ Task Force should avoid federalizing land use decisions. .... 3-8
- By allowing federal agencies to adopt state environmental documents as NEPA equivalents ..... 3-9
732. Public Concern: The CEQ Task Force should encourage state specific solutions to environmental problems unique to the individual state. .... 3-9
733. Public Concern: The CEQ Task Force should ensure that collaboration between the agency initiating the NEPA process and the county does not overly constrain the county's ability to address local issues. .... 3-10

734. Public Concern: The CEQ Task Force should clarify mechanisms for consultations between American Indian tribes and the federal government. ....	3-10
735. Public Concern: The CEQ Task Force should encourage the designation of American Indian tribes as the responsible government official. ....	3-10
736. Public Concern: The CEQ Task Force should identify the legal requirement for government-to-government relations with American Indian tribes. ....	3-10
737. Public Concern: The CEQ Task Force should not allow interagency cooperation to impede public involvement.....	3-10
CEQ Regulations .....	3-11
738. Public Concern: The CEQ Task Force should amend existing regulations. ....	3-11
To encourage greater cooperation with local governments .....	3-11
To encourage tribal participation .....	3-12
Multi-Agency Coordination .....	3-13
739. Public Concern: The CEQ Task Force should encourage agencies to collaborate on NEPA documents.....	3-13
To avoid duplication .....	3-13
740. Public Concern: The CEQ Task Force should coordinate the time frames for NEPA with those for agency planning processes. ....	3-13
Should require regulating agency accountability with respect to response times .....	3-13
741. Public Concern: The CEQ Task Force should require that all decisions be expertise-based and rendered by the agency with recognized knowledge and legal authority. ....	3-14
742. Public Concern: The CEQ Task Force should encourage development of a process to address and monitor differences among agencies. ....	3-14
To improve collaboration.....	3-14
743. Public Concern: The CEQ Task Force should require agencies with environmental and regulatory authority to conduct reviews concurrently with the agency conducting the NEPA analysis. ....	3-14
744. Public Concern: The CEQ Task Force should reject the suggestion to implement coordinated review. ....	3-14
745. Public Concern: The CEQ Task Force should encourage the U.S. Fish and Wildlife Service to participate in interagency collaboration. ....	3-14
NEPA Delegated Review Procedures .....	3-15
746. Public Concern: The CEQ Task Force should rewrite delegation review procedures to emphasize the goal of consolidating the review process when multiple level reviews are required.....	3-15
747. Public Concern: The CEQ Task Force should clarify delegation review procedures to require federal agencies to include a section regarding NEPA compliance and cooperation in cases of multiple actions.....	3-16
748. Public Concern: The CEQ Task Force should amend delegation agreements to coordinate all reviews at the funding agency NEPA EIS level with only one set of public hearings and reviews on a project. ....	3-17
Cooperating Agency Relationships .....	3-17
749. Public Concern: The CEQ Task Force should encourage agencies to extend cooperating agency status to state, local, and tribal governments. ....	3-17
Because state, local, and tribal governments best understand local issues ....	3-18
Because they have large stakes in federal activities in their jurisdiction .....	3-19

Because many local governments already have committees in place to work with federal agencies .....	3-19
Because it will improve the quality of NEPA analysis.....	3-19
750. Public Concern: The CEQ Task Force should require agencies to explain why a county should not be granted cooperating agency status. ....	3-20
751. Public Concern: The CEQ Task Force should encourage cooperating agencies to be knowledgeable about other agencies and their processes. ....	3-20
Lead Agencies and Joint-Lead Relationships .....	3-20
Lead Agencies.....	3-20
752. Public Concern: The CEQ Task Force should define the roles of the lead agency.....	3-20
753. Public Concern: The CEQ Task Force should require lead agencies to follow all pertinent regulations, policies, procedures, and directives.....	3-21
754. Public Concern: The CEQ Task Force should require agreement on which agency will act as the lead reviewer for non-EIS projects requiring multiple level reviews.....	3-21
755. Public Concern: The CEQ Task Force should require the agency with direct stewardship and expertise regarding the affected resource to assume lead agency status. ....	3-21
756. Public Concern: The CEQ Task Force should not delegate lead agency responsibility to a state agency.....	3-21
757. Public Concern: The CEQ Task Force should recognize one lead agency as the single lead agency for decisionmaking.....	3-21
758. Public Concern: The CEQ Task Force should not recognize one lead agency as the single lead agency for decisionmaking.....	3-22
Because it removes authority from other agencies that have expertise .....	3-22
759. Public Concern: The CEQ Task Force should require lead agencies to determine what other agencies should be involved and classify them according to their role. ....	3-22
760. Public Concern: The CEQ Task Force should encourage lead agencies to view cooperating agencies as partners.....	3-22
761. Public Concern: The CEQ Task Force should designate a lead agency to resolve interagency disagreement over scientific interpretation. ....	3-23
762. Public Concern: The CEQ Task Force should strengthen the decisionmaking authority of the lead agency. ....	3-23
Because searching for consensus stalls the process.....	3-23
763. Public Concern: The CEQ Task Force should grant the lead agency the authority to develop the document and set deadlines for agency input and decisions. ....	3-23
Jointly or in parallel with state processes.....	3-23
764. Public Concern: The CEQ Task Force should address the inability of lead agencies to complete the NEPA process. ....	3-23
Joint-Lead Relationships .....	3-24
765. Public Concern: The CEQ Task Force should encourage greater use of joint-lead agency relationships.....	3-24
Because joint-lead projects facilitate creation of an “economy of scale” that will better address broad-level resource concerns .....	3-24
766. Public Concern: The CEQ Task Force should require agencies to inform property owners and local governments of the availability of a joint-lead relationship. ....	3-24

767. Public Concern: The CEQ Task Force should consider that the joint-lead process is not employed fairly. ....	3-24
CHARACTERISTICS OF EFFECTIVE COLLABORATIVE RELATIONSHIPS .....	3-24
Characteristics.....	3-27
General Characteristics.....	3-27
768. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-27
Strategic planning .....	3-27
Parties find the relationship mutually advantageous.....	3-27
Interest in protecting all resources .....	3-28
Understanding of decision consequences for other jurisdictions .....	3-28
Consideration of the public interest.....	3-28
Flexibility, creativity, and innovation .....	3-28
Goals/Objectives .....	3-28
769. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-28
Understanding and promotion of the big picture.....	3-28
Recognition of each agency's governmental mandate .....	3-28
Acceptance of lead agency's mission and purpose .....	3-28
Similar management objectives .....	3-28
Mutual agreement regarding strategies and objectives .....	3-29
Teamwork/Cooperation .....	3-29
770. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-29
Teamwork.....	3-29
Commitment to cooperate.....	3-29
Consensus regarding the process to resolve issues .....	3-29
Fair and equitable negotiation forum.....	3-29
Opportunity for co-creation and joint problem solving.....	3-30
Agreement from all parties .....	3-30
Sharing of knowledge, accolades, and outcomes .....	3-30
Mutual respect for each agency's needs .....	3-30
Coordination of NEPA actions with local and regional agencies.....	3-30
Use of working groups composed of members from each cooperating agency .....	3-31
Incorporation of the planning efforts of other agencies.....	3-31
Coordination of all activities with stakeholders .....	3-31
Interagency Rules/Regulations/Policies .....	3-31
771. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-31
Compliance with other rules and laws .....	3-31
Understanding of federal and state processes .....	3-31
Compliance with rules and regulations of the lands in question.....	3-32
Use of Interagency Agreements and/or Interagency Personnel Agreements .....	3-32
Acknowledgement of different management policies.....	3-32
Standard criteria for evaluating proposed projects .....	3-32
Adequate consultation with American Indian tribes .....	3-32
Roles/Relationships .....	3-33
772. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-33

Clearly defined roles.....	3-33
Designation of a lead federal agency at project inception .....	3-33
Designation of an appropriate federal agency staff person to be responsible for communication .....	3-33
Opportunity for participants to develop professional, interpersonal relationships .....	3-33
Equality among participants.....	3-33
Participation.....	3-34
773. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships. ....	3-34
Participation early in the process.....	3-34
Continued participation throughout the process.....	3-34
Communication.....	3-34
774. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships. ....	3-34
Open communication throughout the process.....	3-34
Information sharing.....	3-35
Full disclosure of available scientific information.....	3-35
Use of a communication protocol for collaboration .....	3-35
Feedback to input.....	3-35
Early response to comments or actions .....	3-35
Public Involvement.....	3-36
775. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships. ....	3-36
Adequate public involvement opportunities.....	3-36
Fair representation of all interests who have a stake in the decision.....	3-36
Early engagement of stakeholders and sources of expertise .....	3-36
Interagency consultations prior to public involvement in order to facilitate meaningful public comment .....	3-36
Trust.....	3-36
776. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships. ....	3-36
Trust between agencies .....	3-36
Honesty .....	3-37
Lack of hidden agendas .....	3-37
Confidence that collaborative efforts will yield projects .....	3-37
Personnel/Education.....	3-37
777. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships. ....	3-37
Adequate resources and trained staff .....	3-37
Educated and available leadership .....	3-37
Employee sharing.....	3-37
Agency rotation of facilitators and note-takers .....	3-37
Designation of a representative from each agency .....	3-38
Agency representatives are personable and have experience as both a team player and a resource manager .....	3-38
Agency personnel work collaboratively with counterparts in other agencies.....	3-38
Third party facilitator .....	3-38
Timeframes .....	3-38

778. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-38
Timely processes.....	3-38
Coordination of timetables and meetings.....	3-39
Establishment of a reasonable schedule for internal document review agreed on in the beginning.....	3-39
Meetings.....	3-39
779. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-39
Pre-project meetings to clarify objectives, methods, terms, and requirements.....	3-39
Regularly scheduled meetings.....	3-39
Quarterly meetings.....	3-39
Convenient meeting places.....	3-39
Funding.....	3-39
780. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-39
Adequate funding.....	3-39
Reimbursement to state agencies for preparation of federal NEPA documents.....	3-40
Funding for county contributions.....	3-40
Technology and Information Management.....	3-40
781. Public Concern: The CEQ Task Force should consider characteristics of effective collaborative relationships.....	3-40
Use of good information technology tools.....	3-40
Uniform policy regarding data management.....	3-40
Common data sets for each agency's jurisdiction.....	3-40
Standard protocols for gathering and managing interagency data.....	3-40
Examples of Effective Collaborative Relationships.....	3-41
782. Public Concern: The CEQ Task Force should consider examples of effective collaborative relationships.....	3-41
Division of Natural Resources and U.S. Fish and Wildlife Service joint NEPA/SEPA EIS.....	3-41
Federal Highway Administration's Red Book.....	3-41
Navy and National Oceanic and Atmospheric Administration Fisheries Service Cooperation for the Shock Trial of the USS Winston S. Churchill.....	3-41
Burned Area Emergency Rehabilitation Partnership.....	3-41
Forest Service and Bureau of Land Management on Endangered Species Act consultation documents in central Idaho.....	3-42
Custer County, Idaho, Environmental Stewardship Program and Model Watersheds Project.....	3-42
Idaho High Level Waste and Facilities Disposition EIS.....	3-42
Power Up Wisconsin.....	3-42
Washington State's Environmental Permit Streamlining Act.....	3-43
Signatory Agency Committee Agreement to Integrate Aquatic Resources Permit Requirements into the NEPA and State Environmental Policy Act Processes in the State of Washington.....	3-43
Oregon Department of Transportation LUTRAQ Plan.....	3-43
Western Governors' Enlibra Principles for Environmental Management.....	3-44
Grays Harbor Lateral project.....	3-44
Green River Basin Advisory Committee.....	3-44

Hanford Comprehensive Land-Use Plan EIS.....	3-44
BARRIERS TO EFFECTIVE COLLABORATIVE RELATIONSHIPS .....	3-45
Barriers .....	3-49
General Characteristics .....	3-49
783. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-49
Lack of understanding and leadership .....	3-49
Lack of understanding of agency-specific factors and concerns .....	3-50
Lack of understanding of communities' relationships with natural resources on public lands.....	3-50
Lack of successful collaboration models.....	3-50
Inability to be objective .....	3-50
Refusal to try something new .....	3-50
Pessimism.....	3-50
Inappropriate application of collaborative processes .....	3-50
Goals/Objectives .....	3-50
784. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-50
Conflicting agency goals and missions .....	3-50
Single focus on own agency mission .....	3-51
View of agency's mission as adversarial to project .....	3-51
Differences in agency objectives and application of environmental laws.....	3-52
Predecisional intent to pursue a preferred alternative .....	3-52
Commitment to Collaborative Process .....	3-52
785. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-52
Lack of commitment to the collaborative process .....	3-52
Lack of agency commitment to planning direction .....	3-52
Lack of federal agency interest.....	3-53
Lack of incentive for agencies to use collaborative processes .....	3-53
Failure to make NEPA a priority.....	3-53
Teamwork/Cooperation .....	3-53
786. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-53
Failure to cooperate.....	3-53
Failure to share information .....	3-54
Failure to coordinate information and actions .....	3-54
Failure to establish or abide by concurrence points .....	3-54
Lack or unacceptance of a good conflict resolution process .....	3-54
Lack of protocols for joint fact-finding .....	3-54
Failure to accommodate the needs of other agencies.....	3-55
Roles/Relationships .....	3-55
787. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-55
Overlapping of jurisdictional responsibilities .....	3-55
Lack of agreed upon roles and responsibilities .....	3-55
Agency differences in decision authority.....	3-55
Lack of decisionmaking authority.....	3-55
Failure to make binding decisions.....	3-55
Special Interests precluding lead agency authority .....	3-55
Misinterpretation on the part of the public of cooperating agency roles.....	3-56

Inter-/Intra-Agency Conflict.....	3-56
788. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-56
Intergovernmental rivalries.....	3-56
Inter- and intra-agency conflicts .....	3-56
Intergovernmental collaboration requirements that conflict with existing state processes.....	3-56
Failure of regional branches of federal agencies to comply with guidance from Washington, D.C.....	3-57
Disagreement on standards and methods of effects analyses .....	3-57
Disagreement on the adequacy of proposed environmental mitigation.....	3-57
Single-Agency Dominance .....	3-57
789. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-57
Reluctance of agencies to share control .....	3-57
Insistence of the federal agency to maintain complete control of the process .....	3-58
Single agency document preparation .....	3-58
Participation .....	3-58
790. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-58
Lack of full participation from cooperating agencies .....	3-58
Limited capacity of local governments to participate .....	3-58
Refusal to become a cooperating agency due to negative effects on public involvement .....	3-59
Refusal to accept cooperating agency status .....	3-59
Laws/Acts/Agency Policies and Regulations .....	3-60
791. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-60
Lack of congressional guidance .....	3-60
Federal Advisory Committee Act.....	3-60
Freedom of Information Act and Sunshine Laws .....	3-61
Lack of specific intergovernmental consultation requirements.....	3-62
Disregard for regulations requiring local government cooperation.....	3-62
Different Regulatory Interpretations.....	3-63
792. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-63
Too many players and interpretations .....	3-63
Divergent philosophies with little incentive to reach agreement.....	3-63
Differences in agency NEPA regulations and interpretation .....	3-63
Differences in regional interpretation of requirements .....	3-64
Lack of understanding regarding the flexibility of regulations .....	3-64
Lack of consistency in NEPA implementation .....	3-64
Lack of consistency in local planning .....	3-64
Lack of agency understanding regarding the roles and effects of NEPA analysis.....	3-64
Communication .....	3-64
793. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-64
Communication barriers.....	3-64

Failure of consulting agencies to make their views known early in the process.....	3-65
Inadequate review of interagency comments.....	3-65
Public Involvement.....	3-65
794. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-65
Lack of participation in the scoping process .....	3-65
Lack of continued interaction by all stakeholders to address concerns .....	3-65
Disregard for comment periods .....	3-65
Fatigue of participants due to excessive public involvement and collaboration.....	3-65
Analysis/Documentation Demands .....	3-66
795. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-66
Volume of environmental documents.....	3-66
Duplication of state and federal analysis requirements .....	3-66
Continuous requests for new information and analysis .....	3-66
Absence of required limitations on additional studies.....	3-66
Over-emphasis on NEPA documentation and litigation protection .....	3-66
Requirement to document alternatives to proposed action in an EIS or EA prior to a decision .....	3-66
Inability of federal agencies to provide guidance on incorporating state or local requirements into joint documents.....	3-66
Trust.....	3-67
796. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-67
Lack of trust.....	3-67
Decisions based on politics rather than science .....	3-67
Egos and hidden agendas.....	3-67
Agency bias regarding projects .....	3-67
Personnel/Education.....	3-68
797. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-68
Lack of sufficient staff .....	3-68
Personnel changes.....	3-68
Poor attitudes of agency employees .....	3-68
Lack of education on current scientific developments .....	3-68
Inadequate support from agency management to resolve issues .....	3-68
Timeframes .....	3-69
798. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships.....	3-69
Unrealistic timeframes .....	3-69
Failure of all agencies to agree on timelines.....	3-69
Failure to subscribe to project schedules.....	3-69
Inordinate time spent on strategic planning .....	3-69
Length of internal review of environmental documents .....	3-69
Late identification of problems and disputes .....	3-70
Response timelines .....	3-70
Failure to comment within timeframes .....	3-70
Funding .....	3-70

799. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-70
Limited resources.....	3-70
Technology and Information Management .....	3-71
800. Public Concern: The CEQ Task Force should consider the barriers/challenges to effective collaborative relationships. ....	3-71
Differences in technological capabilities.....	3-71
Differences in computer capabilities.....	3-71
Failure to use agreed upon environmental/ecological data.....	3-71
Examples of Ineffective Collaborative Relationships .....	3-71
801. Public Concern: The CEQ Task Force should consider examples of ineffective collaborative relationships. ....	3-71
National Marine Fisheries Service.....	3-71
Department of Natural Resources and the U.S. Fish and Wildlife Service.....	3-72
Forest Service and Federal Energy Regulatory Commission .....	3-72
Warm Creek/Clearwater Creek Hydroelectric Project and Grays Harbor Lateral Project.....	3-72
Animas-Laplata Project.....	3-72
Coordinated Activity Plan Draft EIS of 2000 .....	3-73
Catron County Case Study .....	3-73
Fund for Animals versus Jamie Clark.....	3-74
TRAINING EMPHASIS .....	3-74
Training General.....	3-75
802. Public Concern: The CEQ Task Force should encourage training for agency personnel.....	3-75
Training for cooperating agencies unfamiliar with NEPA.....	3-75
Joint agency training for large projects.....	3-75
803. Public Concern: The CEQ Task Force should encourage training in certain areas to facilitate effective collaborative relationships.....	3-76
NEPA as a Framework for collaborative planning .....	3-76
The concept of joint-lead and cooperating agency status.....	3-76
Examples of successful collaborative NEPA processes .....	3-76
804. Public Concern: The CEQ Task Force should emphasize experience over training for skill development. ....	3-76
Training in Team Building and Cooperation .....	3-76
805. Public Concern: The CEQ Task Force should encourage training in team building and cooperation to facilitate effective collaborative relationships.....	3-76
An understanding of common objectives.....	3-76
Communication.....	3-76
Communication skills: negotiation, alternative dispute resolution, and facilitation.....	3-77
Team-oriented problem solving.....	3-77
Organizational changes to facilitate problem solving.....	3-77
Defining and supporting joint successes .....	3-77
Training in Leadership and Roles .....	3-77
806. Public Concern: The CEQ Task Force should encourage training in leadership and roles to facilitate effective collaborative relationships. ....	3-77
Leadership and project management skills .....	3-77
Group coordination, facilitation, and project management expertise .....	3-77
The concept of "effective government" .....	3-77

Mutual understanding of participating agency roles, responsibilities, and decision-making processes .....	3-78
Mutual understanding of important terms, historic bottleneck issues, and expectations of partner agencies .....	3-78
Training in the Importance of Public Involvement .....	3-78
807. Public Concern: The CEQ Task Force should encourage training in the importance of public involvement to facilitate effective collaborative relationships. ....	3-78
An understanding that the people most affected can make the best decision .....	3-78
Training in Other Areas .....	3-78
808. Public Concern: The CEQ Task Force should encourage training in certain areas to facilitate effective collaborative relationships. ....	3-78
Recent laws and regulations.....	3-78
The use of scientific methodology in effects analysis.....	3-79
Situation assessments and diagnostic skills .....	3-79
Memorandum of Understanding templates .....	3-79
BEST PRACTICES FOR INTERGOVERNMENTAL COLLABORATION.....	3-79
809. Public Concern: The CEQ Task Force should review best practices for intergovernmental collaboration. ....	3-79
Memorandum of Understanding between the Army and Forest Service .....	3-79
“Factors for Determining Whether to Invite, Decline or End Cooperating Agency Status”.....	3-80
National Forest County Partnership Restoration programs .....	3-80
Healthy Rangeland Standards and Guidelines .....	3-80
Environmental Assessment for the Establishment of a Horseshoe Crab Sanctuary off the mouth of the Delaware Bay.....	3-80
Magnuson-Stevens Act Requirements Regarding Essential Fish Habitat .....	3-82
<b>Chapter 4 Programmatic Analysis and Tiering</b> .....	<b>4-1</b>
PROGRAMMATIC ANALYSIS AND TIERING GENERAL.....	4-1
810. Public Concern: The CEQ Task Force should continue to require NEPA analysis at both programmatic and project levels.....	4-1
811. Public Concern: The CEQ Task Force should reemphasize that programmatic analysis and tiering can conserve federal planning resources.....	4-2
812. Public Concern: The CEQ Task Force should define the relationship between programmatic and tiered analysis.....	4-2
Should examine whether CEQ regulations should apply differently for programmatic versus site-specific decisions .....	4-2
813. Public Concern: The CEQ Task Force should provide guidance on the appropriate use of programmatic and tiered analysis.....	4-2
Should base the appropriate level of analysis on degrees of time, area, and potential effects .....	4-2
Should define the type, scale and scope of decisions appropriately addressed by programmatic analysis .....	4-2
Should only use programmatic and tiered analysis for projects whose scope and scale specifically demand such analysis.....	4-3
814. Public Concern: The CEQ Task Force should require programmatic analysis and tiering to be consistent with the principles of ecological and biological processes. ....	4-3

815. Public Concern: The CEQ Task Force should advise against programmatic review and tiering when uses and actions must be balanced at the onset of the planning process. ....	4-3
PROGRAMMATIC ANALYSIS.....	4-3
Programmatic Analysis General.....	4-5
816. Public Concern: The CEQ Task Force should provide additional guidance on the appropriate use of programmatic NEPA analysis. ....	4-5
To reduce misapplication .....	4-6
817. Public Concern: The CEQ Task Force should encourage programmatic analysis.....	4-6
If there is an adequate adaptive management process in place to offset the need for further environmental review .....	4-6
If one document can reduce or clarify subsequent documents.....	4-6
818. Public Concern: The CEQ Task Force should ensure that the programmatic EIS is the foundation for any decision made within a program. ....	4-6
819. Public Concern: The CEQ Task Force should consider that a good programmatic analysis is one that is sensitive to the issues. ....	4-6
820. Public Concern: The CEQ Task Force should address the need for programmatic analysis across federal agencies .....	4-7
Bio-threat reduction programs.....	4-7
821. Public Concern: The CEQ Task Force should establish consistent guidelines to determine the level of detail needed for a programmatic analysis. ....	4-7
822. Public Concern: The CEQ Task Force should require agencies to provide adequate documentation at the programmatic level to support a broad array of possible alternatives to satisfy the purpose and need. ....	4-7
823. Public Concern: The CEQ Task Force should require a maximum of one layer of programmatic analysis above the project level. ....	4-7
824. Public Concern: The CEQ Task Force should encourage the use of a programmatic checklist. ....	4-8
825. Public Concern: The CEQ Task Force should ensure that programmatic documents are considered timely for a significant period of time after completion. ....	4-8
To allow for tiering with project level NEPA activity .....	4-8
826. Public Concern: The CEQ Task Force should address the appropriate use of programmatic EISs and EAs.....	4-8
827. Public Concern: The CEQ Task Force should eliminate the programmatic EIS. ....	4-9
828. Public Concern: The CEQ Task Force should ensure programmatic analysis does not supplant formal rulemaking. ....	4-9
Issues Best Addressed by Programmatic Analysis .....	4-9
General Planning Objectives.....	4-9
829. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-9
Forest-wide standards and guidelines.....	4-9
Vision, goals, and objectives.....	4-9
Shifts in general policy .....	4-9
Long-term planning .....	4-9
“Big picture” issues such as “why are we doing this in the first place?” .....	4-10
Broadly Defined Actions/Issues.....	4-10

830. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-10
Broadly defined actions .....	4-10
Federal actions subject to judicial review .....	4-10
Recurring land management actions .....	4-10
Classes of action in which the effects stay the same from project to project .....	4-11
Cumulative effect issues that transcend the project .....	4-11
Large-scale problems .....	4-11
Broad-based analyses to which individual projects will be tiered .....	4-11
Scientific “paradigm shifts” .....	4-11
Broadly Applied Actions .....	4-11
831. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-11
Activities that occur over a wide area .....	4-11
Projects replicated on different planning units .....	4-12
Large ocean areas .....	4-12
Land Allocations .....	4-12
832. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-12
Land allocations .....	4-12
“Zoning” type decisions .....	4-12
Wilderness area recommendations .....	4-12
General Land Management .....	4-13
833. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-13
Processes for adaptive management and monitoring .....	4-13
Transportation planning .....	4-13
Realty actions .....	4-13
Socioeconomic analysis .....	4-13
Natural Resource Management .....	4-13
834. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-13
Landscape issues .....	4-13
Protection of remnant habitat types .....	4-13
New species designation .....	4-13
Air, soil, and water quality .....	4-13
Vegetation management .....	4-14
Exotic plant management .....	4-14
Chemical treatment plans .....	4-14
Fuel reduction plans .....	4-14
Natural Resource/Commodity Development .....	4-14
835. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-14
Categorical exclusions for fuel reduction and/or timber harvest .....	4-14
Oil and gas leasing (not exploration) .....	4-14
Mineral exploration .....	4-14
Grazing .....	4-15
Other .....	4-15
836. Public Concern: The CEQ Task Force should consider what issues are best addressed by programmatic analysis. ....	4-15

Response to immediate change necessitated by changing laws .....	4-15
Cartographic presentations .....	4-15
A variety of uses and issues .....	4-15
Issues Not Best Addressed by Programmatic Analysis .....	4-16
837. Public Concern: The CEQ Task Force should consider what issues are not best addressed by programmatic analysis.....	4-16
Site-specific issues .....	4-16
Actions that will involve a substantial “on-the-ground” component .....	4-16
Route designation processes .....	4-16
Pre-decisional planning or analysis of broad geographical areas .....	4-17
Second tier analysis.....	4-17
Forest plans .....	4-17
TIERING .....	4-17
Tiering General.....	4-18
838. Public Concern: The CEQ Task Force should provide guidance on methodologies for a tiered NEPA process.....	4-18
839. Public Concern: The CEQ Task Force should encourage the use of tiering.....	4-18
To reduce redundancy .....	4-18
To reduce and improve NEPA documentation .....	4-19
To verify the appropriateness and accuracy of the programmatic analysis.....	4-19
Because programmatic analysis cannot address all the issues related to site-specific implementation; is expensive and time intensive to produce; and lessens public trust .....	4-19
Because programmatic analysis routinely disregards economic effects .....	4-19
840. Public Concern: The CEQ Task Force should consider that successful tiering is contingent upon timely development and implementation. ....	4-19
841. Public Concern: The CEQ Task Force should recognize that tiered analysis often uses the programmatic analysis as a stamp of approval for projects which actually merit further analysis. ....	4-19
842. Public Concern: The CEQ Task Force should limit site-specific analysis to a consistency check with programmatic plans.....	4-20
843. Public Concern: The CEQ Task Force should not allow agencies to tier one EA to another EA. ....	4-20
844. Public Concern: The CEQ Task Force should allow agencies to tier one EA to another EA. ....	4-20
For projects of similar type .....	4-20
845. Public Concern: The CEQ Task Force should address second-level planning. ....	4-21
Issues Best Addressed in Tiering.....	4-21
846. Public Concern: The CEQ Task Force should consider what issues are best addressed in tiering.....	4-21
Policy and programmatic management decisions .....	4-21
New issues or site-specific issues not already reviewed at higher tiers.....	4-21
Transportation system analysis.....	4-21
METHODS TO AVOID DUPLICATION IN PROGRAMMATIC AND TIERED ANALYSIS .....	4-22
847. Public Concern: The CEQ Task Force should consider methods to avoid duplication in programmatic and tiered analysis.....	4-22
Direct most effort to EIS analysis and apply project-level NEPA only to emerging issues and effects not previously discussed .....	4-22

Ensure that project analysis does not repeat analysis from the programmatic document .....	4-23
Require that EAs not be stand-alone documents or repeat analysis from the programmatic NEPA document .....	4-23
Reference the EIS in subsequent tiered documents .....	4-23
Limit the scope of site-specific analysis .....	4-24
Revamp timber sale programs to focus on true watershed restoration .....	4-24
Encourage interagency coordination .....	4-24
848. Public Concern: The CEQ Task Force should recognize that tiering can fine-tune the analysis to smaller scales without duplication. ....	4-24
849. Public Concern: The CEQ Task Force should consider that the prospect of reducing or eliminating redundant and duplicative analysis is not promising.....	4-25
Because of the inherent difference between ecosystem and site-specific analysis .....	4-25
EXAMPLES OF PROGRAMMATIC ANALYSIS .....	4-25
Examples of Programmatic Analysis General.....	4-26
850. Public Concern: The CEQ Task Force should consider examples of programmatic analysis.....	4-26
Department of Energy .....	4-26
Department of Natural Resources Forest Practice Rules.....	4-26
National Marine Fishery Service .....	4-26
USDA Forest Service .....	4-27
USDA APHIS.....	4-27
Eglin Air Force Base.....	4-27
Sheppard Air Force Base .....	4-27
Army Transformation Program .....	4-28
Federal Coal Management Program.....	4-28
National Spatial Data Infrastructure .....	4-28
Washington Department of Transportation .....	4-28
New York/New Jersey Comprehensive Port Improvement Plan .....	4-28
Land Use Transportation Air Quality Project, Portland 2040, and Envision Utah .....	4-28
Categorical exclusions.....	4-29
Examples of Analysis Used to Develop, Maintain, and Strengthen Environmental Management Systems.....	4-29
851. Public Concern: The CEQ Task Force should encourage agencies to use environmental management systems.....	4-29
To improve implementation of NEPA decisions .....	4-29
852. Public Concern: The CEQ Task Force should consider features of effective environmental management systems. ....	4-29
Baseline inventory, analysis of trends, and continual avoidance or mitigation of adverse effects .....	4-29
853. Public Concern: The CEQ Task Force should consider examples of good programmatic analysis used to develop, maintain, and strengthen environmental management systems. ....	4-30
Department of Energy .....	4-30
U.S. Navy .....	4-30
New York State Department of Transportation's Environmental Initiative .....	4-30
Examples of Existing Environmental Management Systems Facilitating and Strengthening NEPA Analysis .....	4-31

854. Public Concern: The CEQ Task Force should consider examples of existing environmental management systems facilitating and strengthening NEPA analysis.....	4-31
Department of Defense PEIS for Transformation .....	4-31
Department of the Navy .....	4-31
Idaho National Engineering and Environmental Laboratory.....	4-31
Washington Department of Transportation.....	4-32
855. Public Concern: The CEQ Task Force should adopt ISO 14001 as the national standard for all NEPA work.....	4-32
856. Public Concern: The CEQ Task Force should not adopt ISO 14001 as the national standard for all NEPA work.....	4-32
BARRIERS TO EFFECTIVE USE OF PROGRAMMATIC ANALYSIS .....	4-32
857. Public Concern: The CEQ Task Force should address barriers to effective use of program analysis.....	4-33
Lack of adequate cumulative effects analysis .....	4-33
Deferral of significant effects analysis until late in the process .....	4-34
Information burden.....	4-34
Changing information and site-specific circumstances, and/or outdated programmatic analyses .....	4-34
Uncertainty of future actions and conditions.....	4-35
Legal rulings .....	4-35
Susceptibility to litigation .....	4-35
Individual agency's Interpretation.....	4-36
Endangered Species Act Section Seven requirements .....	4-36
<b>Chapter 5 Adaptive Management, Monitoring, and Evaluation Plans</b>	<b>5-1</b>
ADAPTIVE MANAGEMENT AND MONITORING GENERAL.....	5-1
858. Public Concern: The CEQ Task Force should establish agency guidance regarding the use of adaptive management. ....	5-2
Through appropriate application of the Precautionary Principle.....	5-2
Through the Multiple Use and Sustained Yield Act.....	5-2
859. Public Concern: The CEQ Task Force should clarify the meaning and applicability of adaptive management. ....	5-3
To facilitate public review of NEPA documents .....	5-3
Because adaptive management can mean many things .....	5-3
860. Public Concern: The CEQ Task Force should encourage agencies to use adaptive management as part of NEPA.....	5-3
To lessen analytical requirements.....	5-3
To address risks and project effects.....	5-4
To ameliorate risk and environmental damage.....	5-4
To facilitate management when uncertainty exists .....	5-4
To manage projects that are in the public interest and that are economically justified .....	5-5
To improve predictive ability of resource responses across management actions .....	5-5
To allow actions to proceed while gathering new information.....	5-5
To authorize actions only if they are unlikely to threaten the environment.....	5-5
For highway projects.....	5-6
861. Public Concern: The CEQ Task Force should not permit the use of adaptive management as part of NEPA. ....	5-6
Because the NEPA process should not be continuous.....	5-6

Because adaptive management is unnecessary and is in conflict with NEPA principles and procedures .....	5-6
Because adaptive management is inconsistent with federal trust responsibility to protect tribal rights and interests .....	5-6
Because adaptive management violates NEPA mandates to identify environmental effects .....	5-7
Because use of adaptive management will obviate the need for public review under NEPA .....	5-7
Because CEQ regulations already provide methods for dealing with uncertain outcomes .....	5-8
Because adaptive management is not in CEQ regulations .....	5-8
862. Public Concern: The CEQ Task Force should consider the book <i>Compass and Gyroscopes</i> .....	5-8
FACTORS TO CONSIDER IN RELATION TO ADAPTIVE MANAGEMENT .....	5-8
Factors to Consider .....	5-11
General Factors .....	5-11
863. Public Concern: The CEQ Task Force should establish a formal process to evaluate the potential effectiveness of adaptive management programs .....	5-11
Before subjecting a program to analysis through an EIS .....	5-11
By comparing EIS effects analysis forecasts with actual post-project effects .....	5-11
864. Public Concern: The CEQ Task Force should ensure that adaptive management techniques are specific .....	5-11
So that project proponents fully understand the expectations at the time a permit is issued .....	5-11
865. Public Concern: The CEQ Task Force should advise agencies to notify the public of processes and changes .....	5-11
866. Public Concern: The CEQ Task Force and NEPA should advise agencies not to use adaptive management to sidestep NEPA analysis. ....	5-12
867. Public Concern: The CEQ Task Force should advise agencies not to use adaptive management as a substitute for taking affirmative steps to protect natural resources and species. ....	5-12
868. Public Concern: The CEQ Task Force should advise agencies not to use adaptive management to defer decisions .....	5-13
Planning .....	5-13
869. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management .....	5-13
Administrative and regulatory support .....	5-13
Guidelines for decisionmaking .....	5-13
Definitions of management objectives and outcomes .....	5-14
Willingness to achieve goals .....	5-14
Time/Cost/Staffing Needs .....	5-14
870. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management .....	5-14
Time, cost, and staffing needs .....	5-14
Cost effectiveness .....	5-14
Funding .....	5-14
Data/Analysis .....	5-14
871. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management .....	5-14

Baseline data .....	5-14
Research .....	5-14
Application of science-based experimentation .....	5-14
Number of tested hypotheses .....	5-15
Predictive validity .....	5-15
Risk/Uncertainty .....	5-15
872. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management. ....	5-15
Level of risk.....	5-15
Environmental risks and objectives .....	5-15
Degree of uncertainty.....	5-15
Effects.....	5-16
873. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management. ....	5-16
Understanding of potential project effects .....	5-16
Social and economic effects .....	5-16
Magnitude of consequences .....	5-16
Time lag between cause and effect.....	5-16
Measurable benefits.....	5-16
Performance parameters .....	5-16
Resources.....	5-16
874. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management. ....	5-16
Variability of affected resources .....	5-16
Current and desired conditions for each managed resource .....	5-17
Changed resource conditions .....	5-17
Resources of regional and national significance .....	5-17
Sensitive species and habitat types .....	5-17
Monitoring/Mitigation .....	5-17
875. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management. ....	5-17
Effectiveness of monitoring .....	5-17
Effectiveness of past monitoring strategies and actions .....	5-17
Mitigation methods.....	5-17
Enforceability .....	5-18
876. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management. ....	5-18
Enforcement mechanisms.....	5-18
Project Features.....	5-18
877. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management. ....	5-18
Project duration.....	5-18
Type, frequency, and scale of disturbance .....	5-18
Level of human manipulation and operational changes.....	5-18
Reversibility of the action .....	5-18
New Issues .....	5-18
878. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management. ....	5-18
New issues .....	5-18
New circumstances and methods .....	5-18
Public Views/Involvement.....	5-19

879. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management.....	5-19
Stakeholder views .....	5-19
Public safety and public perception .....	5-19
Differences of opinion.....	5-19
Local knowledge and practices .....	5-19
Information distribution .....	5-19
Other .....	5-19
880. Public Concern: The CEQ Task Force should consider factors in relation to the use of adaptive management.....	5-19
Augmentation of explored changes into the “certain” major federal action .....	5-19
Flexibility .....	5-19
BARRIERS TO INTEGRATING ADAPTIVE MANAGEMENT .....	5-19
Barriers to Implementation .....	5-22
Planning/Regulatory .....	5-22
881. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management.....	5-22
Regulatory limitations .....	5-22
Status of NEPA as a procedural statute.....	5-22
Lack of consistent application of adaptive management .....	5-22
Lack of established standards and guidelines for implementation.....	5-22
Lack of integration of adaptive management principles at the project planning level .....	5-22
Funding .....	5-23
882. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management.....	5-23
Lack of adequate long-term funding .....	5-23
Data/Analysis.....	5-23
883. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management.....	5-23
Lack of scientific data .....	5-23
NEPA thresholds for complete information .....	5-23
Lack of a process for incorporating the use of outside research .....	5-24
Effects .....	5-24
884. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management.....	5-24
Imposition on the agency to demonstrate outcomes .....	5-24
Practical difficulty in detecting and correcting effects .....	5-24
Interactive effects across spatial and temporal scales .....	5-24
Threat to American Indians’ natural and cultural resources .....	5-24
Monitoring/Mitigation.....	5-25
885. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management.....	5-25
Lack of appropriate monitoring systems and proper implementation .....	5-25
Lack of on-site monitoring .....	5-25
Lack of monitoring and mitigation completion .....	5-25
Enforceability .....	5-26
886. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management.....	5-26
Lack of enforceability.....	5-26
Public Views/Involvement .....	5-26

887. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management. ....	5-26
Lack of meaningful and convenient public involvement.....	5-26
Public concern over biased decisionmaking.....	5-26
Inappropriate use of work groups.....	5-27
Other.....	5-27
888. Public Concern: The CEQ Task Force should consider barriers to integrating adaptive management. ....	5-27
Variance of scale and location between adaptive management and original NEPA action.....	5-27
Time spent answering litigation.....	5-27
Lack of a dispute resolution process.....	5-27
METHODS TO STRUCTURE NEPA ANALYSIS TO CONSIDER ADAPTIVE MANAGEMENT.....	5-28
Methods to Structure NEPA Analysis.....	5-30
Identify Goals/Desired Outcomes.....	5-30
889. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management.....	5-30
Establish goals and boundaries.....	5-30
Specify project outcomes.....	5-30
Identify Responsibility.....	5-30
890. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management.....	5-30
Identify the parties responsible for funding the monitoring and for carrying out future mitigation.....	5-30
Identify Costs.....	5-32
891. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management.....	5-32
Examine monitoring costs.....	5-32
Prevent subsequent impositions and costs.....	5-32
Identify Implementation Measures.....	5-32
892. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management.....	5-32
Include quantifiable management measures.....	5-32
Identify performance-based environmental parameters.....	5-33
Associate management options with trigger events.....	5-33
Allow achievement of outcomes through a mix of project actions and programmatic contributions.....	5-33
Provide template models, but tailor plan to specific site.....	5-34
Allow flexibility.....	5-34
Identify Monitoring/Mitigation/etc.....	5-34
893. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management.....	5-34
Establish commitments relative to monitoring and mitigation.....	5-34
Identify Subsequent Review/Measures.....	5-34
894. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management.....	5-34
Define how adaptive management will be assessed and adapted for ensuing years.....	5-34
Establish a sunset clause for unforeseen outcomes.....	5-35
Address Environmental Concerns/Effects.....	5-35

895. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management. ....	5-35
Emphasize environmental protection .....	5-35
Predict environmental risks of future actions .....	5-35
Evaluate a range of effects under each alternative .....	5-35
Disclose effects associated with a range of adaptive management options ....	5-35
Evaluate the effects of monitoring and mitigation plans .....	5-36
Establish an environmental oversight and reporting period .....	5-38
Other .....	5-39
896. Public Concern: The CEQ Task Force should consider methods for structuring NEPA analysis to consider adaptive management. ....	5-39
Provide history of like projects elsewhere, and of other projects in project location .....	5-39
Provide finality of decisions .....	5-39
Maintain valid existing rights .....	5-39
Examples .....	5-40
897. Public Concern: CEQ should adopt the Environmental Protection Agency's technique for ecological risk assessment and decisionmaking as the standard framework for NEPA analysis. ....	5-40
898. Public Concern: The CEQ Task Force should consider examples of effective structuring of NEPA analysis to consider adaptive management. ....	5-40
EIS for the Washington State Forest Practices Rules .....	5-40
ADAPTIVE MANAGEMENT AND SUBSEQUENT NEPA ANALYSIS .....	5-41
Adaptive Management and Subsequent NEPA Analysis .....	5-43
Adaptive Management and Subsequent NEPA Analysis General .....	5-43
899. Public Concern: The CEQ Task Force and NEPA should allow for adjustments in adaptive management without requiring additional NEPA review. ....	5-43
900. Public Concern: The CEQ Task Force and NEPA should avoid any approaches that call for reopening a completed NEPA process .....	5-43
Planning .....	5-43
901. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is needed. ....	5-43
When the rules change .....	5-43
When the adaptive management process is discontinued .....	5-44
When adaptive management objectives do not comply with the current plan .....	5-44
902. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is not needed .....	5-44
When decisionmaking is consistent with programmatic analysis .....	5-44
When initial decisions are appropriate .....	5-44
Analysis .....	5-44
903. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is needed. ....	5-44
When there is any reanalysis of the situation .....	5-44
When there are errors in the effects analysis .....	5-44
New Information .....	5-44
904. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is needed. ....	5-44
When there is significant new information .....	5-44

Indications for Change .....	5-45
905. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is needed. ....	5-45
When monitoring indicates that changes must be made to the decision.....	5-45
Whenever corrective measures are needed.....	5-46
When the same indications are present that triggered the NEPA analysis in the first place.....	5-46
When adaptive management is triggered.....	5-46
When the process doesn't work as predicted .....	5-46
906. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is not needed. ....	5-46
When monitoring results are consistent and compatible with anticipated guidelines .....	5-46
Unforeseen Consequences/Disturbances .....	5-47
907. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is needed. ....	5-47
When unexpected consequences occur.....	5-47
When an unpredicted disturbance occurs .....	5-47
When there are natural occurrences such as fire .....	5-47
New Actions .....	5-47
908. Public Concern: The CEQ Task Force should consider when subsequent NEPA analysis is needed. ....	5-47
When new management actions are considered which were not identified in the original analysis.....	5-47
When a new proposal constitutes a "major federal action significantly affecting the quality of the human environment" .....	5-47
MONITORING TECHNIQUES/ACTIVITIES .....	5-48
Monitoring Techniques/Activities General .....	5-52
909. Public Concern: The CEQ Task Force should establish an effective monitoring and evaluation program for adaptive management. ....	5-52
To collect data using standard scientific methods and statistical analysis .....	5-53
To collect quality baseline data .....	5-53
To collect and analyze trend data over time .....	5-53
To determine whether program objectives are being met.....	5-54
To allow feedback from prior actions to inform future decisions .....	5-54
To establish a basis for appropriate mitigation .....	5-55
To emphasize recreation and net public benefits .....	5-55
910. Public Concern: The CEQ Task Force should consider monitoring to be the top priority for funding and staffing. ....	5-55
911. Public Concern: The CEQ Task Force should provide guidance on coordinating the development of monitoring and mitigation processes. ....	5-55
Through intergovernmental collaborative processes .....	5-55
912. Public Concern: The CEQ Task Force should consider that monitoring and mitigation measures are central to most records of decisions.....	5-56
913. Public Concern: The CEQ Task Force should direct federal agencies to adopt existing state monitoring programs.....	5-56
914. Public Concern: The CEQ Task Force should link monitoring to a Global 2020 report. ....	5-56
915. Public Concern: The CEQ Task Force should consider that adaptive management will encourage excessive monitoring. ....	5-56
Factors Considered in Determining Monitoring Techniques .....	5-56

Laws/Regulations .....	5-56
916. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-56
Legal and regulatory requirements .....	5-56
Planning .....	5-57
917. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-57
Agency commitment and risk of controversial conditions .....	5-57
Availability of assistance and planning flexibility for industry .....	5-57
Response time to act on monitoring results .....	5-57
Staff/Costs .....	5-58
918. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-58
Staff knowledge and skills .....	5-58
Number of individuals needed for each monitoring round .....	5-58
Cost.....	5-58
Use of cost efficient and practical methods.....	5-58
919. Public Concern: The CEQ Task Force should not consider cost a factor in determining monitoring techniques. ....	5-59
Data/Analysis.....	5-59
920. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-59
Adequate data .....	5-59
Sound scientific techniques .....	5-60
Use of extensive broad-scale analysis.....	5-60
Measurability .....	5-60
921. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-60
Measurability of management objectives and thresholds.....	5-60
Focus on measurable target outcomes within project scope.....	5-61
Resources .....	5-61
922. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-61
Characteristics of the resource to be monitored.....	5-61
Terrain conditions for each monitoring period.....	5-61
Evaluation of target and non-target resources .....	5-61
Location and condition of specific resources .....	5-62
Scale .....	5-62
Monitoring.....	5-62
923. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-62
Observability of monitoring parameters .....	5-62
Equipment needed for monitoring.....	5-62
Ability to balance conceptual modeling with field monitoring.....	5-62
Focus on monitoring key relationships that have a large bearing on the decision .....	5-62
Project Success.....	5-63
924. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques. ....	5-63
Accuracy of projections .....	5-63
Achievement of desired future conditions .....	5-63

Length of successful implementation .....	5-63
Risks and Uncertainty .....	5-63
925. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques.....	5-63
Unpredictability of outcomes .....	5-63
Identification of key risks and uncertainties .....	5-63
The risk of irreversible effects .....	5-63
The environmental risk of infrequent monitoring.....	5-64
Prevention of unforeseen consequences .....	5-64
Effects.....	5-64
926. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques.....	5-64
Disclosure of effects.....	5-64
Focus on the net effects of disturbance rather than arbitrary limits.....	5-64
Public Involvement/Collaboration .....	5-65
927. Public Concern: The CEQ Task Force should consider various factors in determining monitoring techniques.....	5-65
Use of work groups .....	5-65
Collaboration between scientists and interested parties in monitoring.....	5-65
Stakeholder involvement.....	5-65
Contributions from non-governmental organizations/businesses.....	5-65
Examples of Effective Monitoring.....	5-66
928. Public Concern: The CEQ Task Force should consider examples of effective monitoring in adaptive management plans. ....	5-66
Washington State DEpartment of Natural Resources' Adaptive Management Program .....	5-66
Characteristics of Current Monitoring Activities.....	5-67
929. Public Concern: The CEQ Task Force should consider characteristics of current monitoring activities.....	5-67
Inadequate funding .....	5-67
Inadequate timing .....	5-67
Inadequate staffing .....	5-67
Mitigation .....	5-67
Mitigation General .....	5-67
930. Public Concern: The CEQ Task Force should provide guidance on what constitutes adequate and inadequate mitigation.....	5-67
931. Public Concern: The CEQ Task Force should encourage appropriate mitigation. ....	5-67
Through use of a mitigation and monitoring reporting plan.....	5-68
932. Public Concern: The CEQ Task Force should address mitigation in relation to the functional equivalency of environments. ....	5-68
933. Public Concern: The CEQ Task Force should require agencies to adequately discuss mitigation measures. ....	5-68
934. Public Concern: The CEQ Task Force should avoid overreliance on mitigation. ....	5-68
To ensure that environmental effects are prevented .....	5-68
935. Public Concern: The CEQ Task Force should advise agencies not to rely on voluntary industry compliance with mitigation agreements. ....	5-69
Mitigation and Document Preparation .....	5-69
936. Public Concern: The CEQ Task Force should address the use of 'creeping' mitigation to avoid preparing an EIS.....	5-69

Fear of 'significant impacts' leads to excessive mitigation .....	5-70
Fear of litigation leads to excessive mitigation .....	5-70
'Creeping mitigation' is an aberration under NEPA .....	5-71
Project applicants and the public should scrutinize 'creeping mitigation' .....	5-71
Agencies should disclose to the public the pros and cons of mitigated FONSI's.....	5-71
937. Public Concern: The CEQ Task Force should ensure that the public has the opportunity to review and comment on mitigated FONSI's and EAs .....	5-72
938. Public Concern: The CEQ Task Force should encourage agencies to implement mitigation as a means to prepare documents requiring less analysis. ....	5-72
939. Public Concern: The CEQ Task Force should allow use of mitigated FONSI's.....	5-72
EXAMPLES/BEST PRACTICES FOR ADAPTIVE MANAGEMENT .....	5-72
940. Public Concern: The CEQ Task Force should consider examples of effective adaptive management programs. ....	5-72
Northwest Forest Plan .....	5-72
Washington State Department of Natural Resources.....	5-72
Custer County and the Center for Holistic Management .....	5-74
Pacific Lumber Company Habitat Conservation Plan.....	5-74
941. Public Concern: The CEQ Task Force should provide agencies with models of completed projects which effectively employed adaptive management. ....	5-75
Through a 'domestic scan' .....	5-75

## **Chapter 6 Categorical Exclusions 6-1**

CATEGORICAL EXCLUSIONS GENERAL .....	6-1
General Concerns .....	6-2
942. Public Concern: The CEQ Task Force should recognize the value of categorical exclusions.....	6-2
To streamline regulatory processes.....	6-2
943. Public Concern: The CEQ Task Force should encourage agencies to reevaluate existing categorical exclusions. ....	6-2
For actions that may affect invasive pathways.....	6-2
To determine whether environmental effects are actually minimal.....	6-2
944. Public Concern: The CEQ Task Force should recognize the effect of court decisions on agency categorical exclusions.....	6-2
945. Public Concern: The CEQ Task Force should address the complexity and cost of categorical exclusions. ....	6-3
946. Public Concern: The CEQ Task Force should discourage agencies from using categorical exclusions as a means to circumvent the NEPA process.....	6-3
947. Public Concern: The CEQ Task Force should discourage agencies from using categorical exclusions as a means to ignore cumulative effects. ....	6-3
948. Public Concern: The CEQ Task Force should discourage agencies from declaring extraordinary circumstances as a means to delay the process. ....	6-4
949. Public Concern: The CEQ Task Force should encourage agencies to use categorical exclusions when it is appropriate to do so. ....	6-4
950. Public Concern: The CEQ Task Force should advise agencies not to allow development interests to use categorical exclusions to avoid environmental responsibility.....	6-4

951. Public Concern: The CEQ Task Force should continue to limit the span of categorical exclusions. ....	6-4
952. Public Concern: The CEQ Task Force should eliminate categorical exclusions. ....	6-4
Because the policy is redundant .....	6-4
Because the process does not consider public input.....	6-5
Categorical Exclusion Terminology .....	6-5
953. Public Concern: The CEQ Task Force should clarify the concept of “exceptions” to categorical exclusions. ....	6-5
To improve agency compliance.....	6-5
954. Public Concern: The CEQ Task Force should not allow agencies to limit the definition of extraordinary circumstances.....	6-5
955. Public Concern: The CEQ Task Force should define the level of significance regarding the effects of categorical exclusions on the human environment. ....	6-5
956. Public Concern: The CEQ Task Force should emphasize the new definition of “extraordinary circumstances.” .....	6-6
As it relates to threatened and endangered species.....	6-6
957. Public Concern: The CEQ Task Force should eliminate references to “controversial.” .....	6-6
ESTABLISHMENT OF CATEGORICAL EXCLUSIONS.....	6-6
Establishment of Categorical Exclusions General.....	6-9
958. Public Concern: The CEQ Task Force should develop procedures and standards for establishing categorical exclusions.....	6-9
To provide clarity and consistency in the process .....	6-9
To facilitate consistency among different agencies .....	6-9
To avoid agency abuse of categorical exclusions.....	6-9
959. Public Concern: The CEQ Task Force should encourage agencies to develop and use more categorical exclusions. ....	6-10
Program-specific categorical exclusions .....	6-10
960. Public Concern: The CEQ Task Force should ensure that agencies balance immediate needs with environmental effects when applying categorical exclusions. ....	6-10
961. Public Concern: The CEQ Task Force should consider environmental effects over political issues when establishing categorical exclusions. ....	6-10
Basis for Establishing Categorical Exclusions.....	6-11
Laws/Regulations.....	6-11
962. Public Concern: The CEQ Task Force should outline the basis for establishing categorical exclusions. ....	6-11
Compliance with federal laws.....	6-11
Compliance with the Data Quality Act .....	6-11
Existing environmental regulations.....	6-11
Data/Analysis .....	6-11
963. Public Concern: The CEQ Task Force should outline the basis for establishing categorical exclusions. ....	6-11
Existing data .....	6-11
Data pertinent to plan goals .....	6-11
Data consistent with the scale of action .....	6-12
Data from various studies .....	6-12
Peer-reviewed science.....	6-12
Project Type.....	6-12

964. Public Concern: The CEQ Task Force should outline the basis for establishing categorical exclusions. ....	6-12
Continuance of historically permitted actions .....	6-12
Repetitive nature of projects .....	6-12
Frequency and geographic breadth of the action .....	6-12
Past experience with similar projects .....	6-12
Individual situations .....	6-13
Extraordinary circumstances .....	6-13
Project Effects .....	6-13
965. Public Concern: The CEQ Task Force should outline the basis for establishing categorical exclusions. ....	6-13
Expected level of effects .....	6-13
Environmental effects of similar past projects .....	6-13
Effects to the human environment .....	6-13
Social and economic effects .....	6-13
Existing environmental assessment documents which demonstrate the proposed action will have no adverse effects .....	6-14
Peer reviewed, published scientific literature demonstrating insignificant effects .....	6-14
Other .....	6-14
966. Public Concern: The CEQ Task Force should outline the basis for establishing categorical exclusions. ....	6-14
Consultation with an interdisciplinary team .....	6-14
Consensus with local governments and individuals .....	6-14
Number of categorical exclusions receiving Federal Highway Administration concurrence .....	6-14
Time-sensitive projects relating to forest health and public safety .....	6-15
Activities/Actions Appropriate for Categorical Exclusion .....	6-15
Activities General .....	6-15
967. Public Concern: The CEQ Task Force should establish criteria for agencies to distinguish between actions that are statutorily excluded versus categorically excluded. ....	6-15
968. Public Concern: The CEQ Task Force should address the inequity between actions that qualify for categorical exclusion. ....	6-15
969. Public Concern: The CEQ Task Force should develop an objective checklist for determining categorical exclusion eligibility. ....	6-16
970. Public Concern: The CEQ Task Force should compile a list of universal categorical exclusions that apply to common activities among agencies. ....	6-16
971. Public Concern: The CEQ Task Force should limit agencies to specific lists of actions that may be categorically excluded. ....	6-16
972. Public Concern: The CEQ Task Force should not limit agencies to specific lists of actions that may be categorically excluded. ....	6-16
973. Public Concern: The CEQ Task Force should provide direction for agencies regarding the application of categorical exclusions to stop illegal activities on public lands. ....	6-16
974. Public Concern: The CEQ Task Force should consider what actions are appropriate for categorical exclusion. ....	6-17
Actions implementing decisions that are already made .....	6-17
Actions occurring in areas already developed .....	6-17
Actions that maintain the status quo .....	6-17
Federal wildlife management actions consistent with state wildlife plans .....	6-17

Beneficial Management Actions .....	6-18
975. Public Concern: The CEQ Task Force should consider what actions are appropriate for categorical exclusion. ....	6-18
Actions that have positive effects on the environment .....	6-18
Only actions that protect the environment .....	6-18
Actions needed to respond to natural disasters .....	6-18
Actions in response to illegal resource degradation .....	6-18
Removal of junipers to regenerate aspen stands .....	6-18
Removal of hazardous trees along roads .....	6-18
Watershed improvements and salvage timber harvest .....	6-19
Noxious weed control .....	6-19
Resource Development Activities .....	6-19
976. Public Concern: The CEQ Task Force should consider what actions are appropriate for categorical exclusion. ....	6-19
Small scale commercial timber harvest .....	6-19
Actions specifically related to oil, gas, and mining development .....	6-19
Renewal of grazing permits .....	6-20
Recreation Development .....	6-21
977. Public Concern: The CEQ Task Force should consider what actions are appropriate for categorical exclusion. ....	6-21
Resort activities .....	6-21
Low-Impact Activities .....	6-21
978. Public Concern: The CEQ Task Force should consider what actions are appropriate for categorical exclusion. ....	6-21
Low impact projects .....	6-21
Actions with no significant environmental effects .....	6-21
Private actions with minimal effect on federal land .....	6-22
Activities/Actions Not Appropriate for Categorical Exclusions .....	6-22
Natural Resource Development .....	6-22
979. Public Concern: The CEQ Task Force should consider what actions are not appropriate for categorical exclusion. ....	6-22
Resource development .....	6-22
Wetlands development .....	6-22
Timber harvest .....	6-22
Oil and gas activities .....	6-22
Mining .....	6-22
Grazing .....	6-22
Road construction .....	6-22
New highway routing or construction .....	6-22
Urbanization .....	6-22
Activities Having Potentially Significant Effects .....	6-23
980. Public Concern: The CEQ Task Force should consider what actions are not appropriate for categorical exclusion. ....	6-23
Actions where cumulative effects are a key factor .....	6-23
Circumstances that trigger NEPA significance .....	6-23
Fire projects .....	6-23
Pesticide and herbicide application .....	6-23
Field testing of genetically modified plants .....	6-23
981. Public Concern: The CEQ Task Force should recognize that many activities are inappropriately authorized for categorical exclusion .....	6-24
Because a cumulative effects analysis is not required .....	6-24

INTERAGENCY REVIEW OF CATEGORICAL EXCLUSIONS .....	6-24
Interagency Review General .....	6-25
982. Public Concern: The CEQ Task Force should encourage agencies to review and apply other agencies' categorical exclusions. ....	6-25
983. Public Concern: The CEQ Task Force should require less analysis from agencies adopting another's categorical exclusion. ....	6-26
984. Public Concern: The CEQ Task Force should allow agencies to retain the right to decline another agency's application to adopt a categorical exclusion. ....	6-26
Factors to Evaluate in Interagency Review .....	6-26
Laws/Regulations .....	6-26
985. Public Concern: The CEQ Task Force should consider what factors are appropriate to evaluate in interagency review. ....	6-26
Local laws and regulations .....	6-26
Outcome of appeals .....	6-26
Environmental justice issues .....	6-26
Agency Processes .....	6-26
986. Public Concern: The CEQ Task Force should consider what factors are appropriate to evaluate in interagency review. ....	6-26
Similarity in agency missions .....	6-26
Frequency at which the other agency conducts the NEPA process .....	6-26
Data/Analysis .....	6-27
987. Public Concern: The CEQ Task Force should consider what factors are appropriate to evaluate in interagency review. ....	6-27
Scientific data .....	6-27
Monitoring results .....	6-27
Project Type .....	6-27
988. Public Concern: The CEQ Task Force should consider what factors are appropriate to evaluate in interagency review. ....	6-27
Similarity in historical use .....	6-27
Similarity of projects .....	6-27
Similarity of situation .....	6-27
Frequency of action .....	6-27
Proximity of actions .....	6-27
Geographic scope of action .....	6-27
Presence of extraordinary circumstances .....	6-28
Project Effects .....	6-28
989. Public Concern: The CEQ Task Force should consider what factors are appropriate to evaluate in interagency review. ....	6-28
Relative effects .....	6-28
Findings of the effects analysis .....	6-28
Ecological, sociological, and economic consequences .....	6-28
Other .....	6-28
990. Public Concern: The CEQ Task Force should consider what factors are appropriate to evaluate in interagency review. ....	6-28
Environmental conditions .....	6-28
Consistency of terminology .....	6-28
Success rates .....	6-28
Applicable resource areas .....	6-29
Degree of controversy .....	6-29
IMPROVEMENTS IN THE PROCESS OF ESTABLISHING NEW CATEGORICAL EXCLUSIONS .....	6-29

Improvements General .....	6-30
991. Public Concern: The CEQ Task Force should improve the process of establishing new categorical exclusions. ....	6-30
By not tolerating abuse of the process .....	6-30
By considering environmental effects.....	6-30
To avoid national bankruptcy .....	6-30
992. Public Concern: The CEQ Task Force should expedite the process of establishing categorical exclusions. ....	6-30
To diminish susceptibility to litigation.....	6-30
By limiting required analysis.....	6-30
993. Public Concern: The CEQ Task Force should issue a guidance document regarding the establishment of categorical exclusions. ....	6-31
994. Public Concern: The CEQ Task Force should improve the process of establishing new categorical exclusions by providing guidance on criteria. ....	6-31
By developing an objective list of criteria for agencies to follow.....	6-31
By developing a nationwide database of approved categorical exclusions.....	6-31
By narrowing the criteria for exceptions to categorical exclusions .....	6-32
By allowing similar actions to be categorically excluded.....	6-32
By reconsidering the “kick out” criteria .....	6-32
995. Public Concern: The CEQ Task Force should improve the process of establishing new categorical exclusions by providing guidance on agency practices. ....	6-32
By encouraging agencies to use a transparent process .....	6-32
By placing more reliance on professional managers .....	6-33
By allowing agencies to publish findings in the Federal Register.....	6-33
By advising agencies to periodically review and update categorical exclusions .....	6-33
By encouraging agencies to establish regional- or area-specific categorical exclusions.....	6-33
By encouraging agencies to consider categorical exclusions on a local basis .....	6-34
By removing agencies and special interest groups from the process .....	6-34
996. Public Concern: The CEQ Task Force should establish an administrative review process for agency decisions to apply a categorical exclusion. ....	6-34
To avoid unnecessary legal challenges.....	6-34
997. Public Concern: The CEQ Task Force should apply more flexibility in establishing categorical exclusions. ....	6-34
For simple special use permits.....	6-34
For routine maintenance projects.....	6-34
For small mineral exploration projects.....	6-34
998. Public Concern: The CEQ Task Force should broaden the use of categorical exclusions. ....	6-35
By studying EA’s that conclude there is insufficient effect to have justified an EA.....	6-35
To allow decisions and actions to move forward .....	6-35
999. Public Concern: The CEQ Task Force should use existing, broadly defined categorical exclusions rather than establishing new ones.....	6-35
1000. Public Concern: The CEQ Task Force should recognize that no improvements are needed in the process of establishing categorical exclusions. ....	6-35

Improvements in Agency Handbook Direction .....	6-36
1001. Public Concern: The CEQ Task Force should advise the Forest Service to strengthen its handbook requirements for categorical exclusions.....	6-36
1002. Public Concern: The CEQ Task Force should advise the Forest Service to remove all examples of categorical exclusions in FSH 1909.15, and retain just a goal-oriented category definition. ....	6-36
1003. Public Concern: The CEQ Task Force should advise the Forest Service to revise FSH 1909.15 Chapter 30 to clarify direction regarding extraordinary circumstances.....	6-37
Analysis Requirements.....	6-37
1004. Public Concern: The CEQ Task Force should require agencies to provide supporting documentation of a decision to apply a categorical exclusion. ....	6-37
To accommodate unanticipated situations.....	6-37
To avoid unnecessary legal challenges .....	6-37
Should require the same supporting scientific information for establishing categorical exclusions as that required for an EA or EIS .....	6-37
1005. Public Concern: The CEQ Task Force should not require agencies to provide supporting documentation of a decision to apply a categorical exclusion. ....	6-38
1006. Public Concern: The CEQ Task Force should adequately identify the level of analysis necessary for certain types of categorical exclusions.....	6-38
On a case-by-case basis .....	6-39
1007. Public Concern: The CEQ Task Force should provide further clarification regarding the format and level of analysis that should occur in categorical exclusion decision documents. ....	6-39
Regulatory Changes.....	6-39
1008. Public Concern: The CEQ Task Force should revise 36 CFR 228.31 Category 8 for short-term mineral, energy, or geophysical activities. ....	6-39
1009. Public Concern: The CEQ Task Force should incorporate direction from “Guidance Regarding NEPA Regulations” into categorical exclusion regulations.....	6-40
PUBLIC INVOLVEMENT AND CATEGORICAL EXCLUSIONS .....	6-40
1010. Public Concern: The CEQ Task Force should require agencies to involve the public and stakeholders in developing new categorical exclusions.....	6-41
1011. Public Concern: The CEQ Task Force should discourage agencies from applying categorical exclusions as a means to avoid public participation. ....	6-41
EXAMPLES/BEST PRACTICES FOR ESTABLISHING CATEGORICAL EXCLUSIONS.....	6-41
1012. Public Concern: The CEQ Task Force should not assume that categorical exclusions represent a best practice.....	6-42
1013. Public Concern: The CEQ Task Force should consider examples of methods for establishing categorical exclusions. ....	6-42
Washington State guidelines .....	6-42
Federal Highway Administration methods.....	6-42
